Wild Boy Mary Losure,2013-03-26 What happens when society finds a wild boy alone in the woods and tries to civilize him A true story from the author of *The Fairy Ring* One day in 1798 woodsmen in southern France returned from the forest having captured a naked boy He had been running wild digging for food and was covered with scars In the village square people gathered around gaping and jabbering in words the boy didn t understand And so began the curious public life of the boy known as the Savage of Aveyron whose journey took him all the way to Paris Though the wild boy s world was forever changed some things stayed the same sometimes when the mountain winds blew he looked up at the sky made sounds deep in his throat and gave great bursts of laughter In a moving work of narrative nonfiction that reads like a novel Mary Losure invests another compelling story from history with vivid and arresting new life Back matter includes an author s note source notes and a bibliography

The Wild Boy of Aveyron Harlan Lane,1976 A full account of Dr Jean Marc Itard s work in the early 1800s with Victor who had lived wild for twelve years and of the resulting educational psychological anthropological and philosophical controversies and changes

The Forbidden Experiment Roger Shattuck,2025-08-26 The true story of the nineteenth century s so called Wild Boy of Aveyron an abandoned French child who lived for years alone in the wilderness before being brought under the care of an innovative young physician Before dawn on January 9 1800 a remarkable creature came out of the woods near the village of Saint Sernin in southern France So begins Roger Shattuck s book about the so called Wild Boy of Aveyron a child abandoned by his caretakers and captured years later while scavenging food from a garden Unable to speak he was sent to the National Institute for the Deaf in Paris declared a hopeless case and left to languish One day however Jean Itard a young medical student from the provinces took notice of the boy Itard began to spend time with him and soon the two found ways to interact With games and toys Itard engaged the boy s senses and imagination developing methods of education some of which went on to form a basis for special education and the Montessori method that brought him out further For a while Victor as Itard named him made progress but soon it stalled Isolated behind institutional walls the boy lived out the rest of his life a stone s throw from the Luxembourg Gardens *The Forbidden Experiment* tells the story of a tragic young man and the extraordinary doctor who tried however imperfectly to help him It is a story of compassion like the case studies of Oliver Sacks a figure whom Itard foreshadows It is also a story that leads Shattuck to ask deep questions about the human animal What is language how do we acquire it and what do we become if we are deprived of it

The Wild Boy Mordicai Gerstein,2009-07-10 Relates the story of a boy who grew up like a wild animal in the forests of France and was later captured and studied by doctors in Paris but never became completely civilized An ALA Notable Book Reprint

Aveyron Michael Allen White,2012-11-01 A generational memoir of troubled youth and redemption *The Positive Side of Special Education* Kenneth A. Kavale,Mark P. Mostert,2004-06-21 This book provides a description of special education practices that have had significant impact but lacked scientific validation **Idiocy** Patrick McDonagh,2008-01-01 In ancient Athens idiots were those selfish citizens who dishonorably declined to participate in the life of the polis and whose disavowal of the public interest was seen as poor taste and an indication of judgment Over time however the term idiot has shifted from that philosophically uncomplicated definition to an ever changing sociological signifier encompassing a wide range of meanings and beliefs for those concerned with intellectual and cognitive disability **Idiocy A Cultural History** offers for the first time a analysis of the concept drawing on cultural sociological scientific and popular representations ranging from Wordsworth s *Idiot Boy* and Dickens *Barnaby Rudge* to Down s Ethnic classification of idiots It tracks how our changing definition of idiocy intersects with demography political movements philosophical traditions economic concerns and the growth of the medical profession **Worlds of Sense** Constance Classen,2023-02-28 First published in 1993 *Worlds of Sense* is an exploration of the historical and cultural formation of the senses As the author demonstrates different cultures have strikingly different ways of making sense of the world In the modern urban West we are accustomed to thinking in terms of visual models such as world view whereas the Ongee of the Andaman Islands for example live in a world ordered by smell and the Tzotzil of Mexico hold that temperature is the basic force of the cosmos In a fascinating examination of the role of the senses in diverse societies and eras Constance Classen shows the extent to which perception is shaped by and expressive of cultural values This book will be of interest to students of cultural studies sociology anthropology and philosophy **Victor** Mordicai Gerstein,1998 A novel based on the work of Dr Jean Marc Itard who spent the years shortly after the French Revolution working with a savage boy whom he called Victor trying to prove he was not an idiot and to teach him how to live in human society **The Development of Children** Cynthia Lightfoot,Michael Cole,Sheila R. Cole,2008-12-08 Rev ed of *Development of children* Michael Cole Sheila R Cole Cynthia Lightfoot c2005 5th ed *McClure's Magazine ...* ,1911 **Wildboy** Gordon Crosse,1989 **The Wild Boy of Aveyron** Jean Marc Gaspard Itard,1932 The scene of the very human story described in this book was laid in Paris at the end of the eighteenth and the beginning of the nineteenth centuries In these stirring times there lived at Paris a young medical man Jean Marc Gaspard Itard born in the provinces who had early achieved some distinction in his profession and at the age of twenty five was appointed physician to the new institution for deaf mutes In 1799 the year seven by the new calendar there was published in the *Journal des D bats* a letter by one Citizen Bonaterre describing a wild boy taken in the woods of the Department of Aveyron According to reports the child was a specimen of primitive humanity He had been found almost unclad wandering about at the outskirts of the forest in which he had apparently lived for some years a stranger to human kind eking out a precarious existence as best he could The boy was brought to Paris and soon became a nine days wonder People of all classes thronged to see him expecting

to find as Rousseau had told them a pattern of man as he was when wild in woods the noble savage ran What they did see was a degraded being human only in shape a dirty scarred inarticulate creature who trotted and grunted like the beasts of the fields ate with apparent pleasure the most filthy refuse was apparently incapable of attention or even of elementary perceptions such as heat or cold and spent his time apathetically rocking himself backwards and forwards like the animals at the zoo A man-animal whose only concern was to eat sleep and escape the unwelcome attentions of sightseers Expert opinion was as usual somewhat derisive of popular attitude and expectations The great Pinel examined the boy declaring that his wildness was a fake and that he was an incurable idiot Among those who saw the child was the young Itard who fired with the notion that science particularly medical science was all powerful and perhaps believing that his older colleague was too conservative in applying his own principle of the curability of mental disease came to the conclusion that the boy's condition was curable The apparent subnormality Itard attributed to the fact that the child had lacked that intercourse with other human beings and that general experience which is an essential part of the training of a normal civilized person This diagnosis Itard was prepared to back by an attempt at treatment and the boy was consequently placed under the young doctor's care at the institution over which he presided Of the immediate success of Itard's work there is no question In place of the hideous creature that was brought to Paris there was to be seen after two years instruction an almost normal child who could not speak but who lived like a human being clean affectionate even able to read a few words and to understand much that was said to him
