The Causes Of Suicide:

The Causes of Suicide Maurice Halbwachs,1978 *The Right to Be Protected from Committing Suicide* Jonathan Herring,2022-06-16 This book argues that suicidal people have the right to receive treatment and for reasonable steps to be taken that they are protected from killing themselves Those suffering threats to life from mental health issues deserve the same protection as those who face threats to life from ill health or violence from others The book explores the ethical and legal case for giving those beset with suicidal thoughts the treatment they need and for reasonable steps to be taken to prevent them attempting suicide Debates around suicide tend to be dominated by cases involving those with terminal medical conditions seeking assisted dying But of those wishing to die it is far more common to find middle aged men and young people oppressed by mental health and personal problems Too often the woeful failure in the funding of mental health services in the UK means that suicidal people are denied the support and help they desperately need This ground breaking book makes the legal and ethical case for recognising that the state and public authorities have a duty to provide and implement an effective suicide prevention strategy Suicide Movies Steven Stack,Barbara Bowman,2011-01-01 How is suicide portrayed in the cinema and what does it mean for suicide prevention The first ever comprehensive study of film suicide analyzes more than 1 500 film suicides The portrayal of suicide in cinema can impact public understanding and effective prevention of suicide This book presents the first ever comprehensive analysis of how suicide has been portrayed in films over 110 years based on a thorough evaluation of more than 1 500 film suicides 1 377 in American films 135 in British films One striking finding is that while the research literature generally attributes suicide to individual psychiatric or mental health issues cinema and film solidly endorse more social causes In a compelling blend of social science and humanities approaches the authors use quantitative methods as well as the voices of scriptwriters directors actors and actresses dozens of illustrative frame grabs and numerous case examples to answer core questions such as Are we guilty of over neglecting social factors in suicide prevention and research Do cinematic portrayals distort or accurately reflect the nature of suicide in the real world Has film presentation of suicide changed over 110 years What are the literary roots of cinema portrayals This unique book makes fascinating reading for all concerned with suicide prevention as well as areas such as sociology film and media studies and mass communication *British Medical Journal* ,1865 *The Journal of Mental Science* ,1899 Vol 77 includes Yearbook of the Association 1931 Medical Record George Frederick Shrady,Thomas Lathrop Stedman,1902 *The Insurance Critic* ,1895 *The New Encyclopedia of Social Reform* William Dwight Porter Bliss,Rudolph Michael Binder,1908 **International Survey of Legal Decisions on Labour Law** International Labour Organization,1929 1925 1926 include legal decisions of England France Germany and Italy 1927 1938 also those of the United States *The Connection of Disease with Habits of Intemperance* Charles Willsie,Gallus Thomann,George Jacobs Low,Henry Ingersoll Bowditch,Sir Isambard Owen,1885 The District Reports of Cases Decided in All the Judicial Districts of the State of
