The Challenge Of Antarctica:

The Challenge of Antarctica Eleanor Honnywill, 1984 *Coasts, Marine Structures and Breakwaters 2023* Kevin Burgess, 2024-03-19 The ICE Coasts Maritime Structures and Breakwaters conference series is the leading international forum for the presentation of the latest developments in coastal and maritime engineering This book is provided as 2 individual volumes *Antarctica and the Humanities* Roberts Peder, Lize-Marié van der Watt, Adrian Howkins, 2016-08-31 The continent for science is also a continent for the humanities Despite having no indigenous human population Antarctica has been imagined in powerful innovative and sometimes disturbing ways that reflect politics and culture much further north Antarctica has become an important source of data for natural scientists working to understand global climate change As this book shows the tools of literary studies history archaeology and more can likewise produce important insights into the nature of the modern world and humanity more broadly **Atmospheric Research in Antarctica** Neloy Khare, 2019-11-20

The Challenge of New Territories Finn Sollie, 1974 Series of articles on problems associated with administration and exploitation of polar regions sea bed and continental shelves *The Antarctic Manual for the Use of the Expedition of 1901* George Murray, 1901 Photo facsimile edition of volume first published in 1901 with contributions or quotations from 54 authors dealing with all aspects of Antarctic research to assist the members of R F Scott's 1901-04 Discovery expedition

International Research in the Antarctic Richard Fifield, 1987 Chapters are based on special reports from SCAR the Scientific Committee on Antarctic Research **The Antarctic Manual for the Use of the Expedition of 1901** Royal Geographical Society (Great Britain), 1901 **Antarctica** David Massam, 1991-01-01 **A Frozen Field of Dreams, Science, Strategy, and the Antarctic in Norway, Sweden, and the British Empire, 1912-1952** Peder William Chellew

Roberts,2010 The dissertation examines how actors in Norway Sweden and the British Empire conceived the Antarctic as a space for science during the years 1912 to 1952 Instead of tracing a narrative of enlightenment how science became the dominant form of activity in the Antarctic I examine a series of episodes with particular attention to why particular kinds of science held sway within specific political cultural and economic contexts Concerned more with how Antarctic science was planned and justified than how it was executed in the field the project draws upon recent scholarship in geography and geopolitics as well as the history of exploration The six case studies involve an aborted Anglo Swedish Antarctic expedition in 1912 Britain s interwar Antarctic whaling research program debates among whaling magnates and their associates over the relationship between Antarctic science and whaling in interwar Norway the culture of polar exploration that emerged at Cambridge and to some extent Oxford between the world wars the approach to polar exploration and quantitative glaciology pioneered by the Swedish geographer Hans Ahlmann and the complicated history of the Norwegian British Swedish Antarctic Expedition 1949 52 I conclude with an epilogue arguing that the rise of international science in the Antarctic during the 1950s reflected the geopolitical dynamics of the Cold War rather than the triumph of science over politics

The True Story of Captain Scott at the South Pole Will Holwood,1964 *Antarctica* David Graham Massam,Photobank,1991 Looks at the geography of Antarctica its discovery and exploration the wildlife life on an Antarctic base and the associated dangers as well as the future of the icy continent Suggested level primary intermediate

Antarctica and the South Atlantic Robert Fox,1985 Account of author s trip to Antarctica from the Falkland Islands in 1984 Includes general information on such things as the Antarctic Treaty previous expeditions and history of claims on Antarctica etc Also includes a section on the Falkland Islands

The Influence of the United Nations on the Antarctic System Stuart Harris, 1990

A Unique Life at Sea Captain Peter Skog, 2019-09-05 It was a hot fine day in the middle of November 2003 in the very upper part of the mighty Amazon River in Iquitos Peru where I ended up living for 15 years when I started to write on this autobiography realizing that my life at sea had been extremely special in every aspect ever since I started at sea 1963 as a barely 16 year young teenager facing some weird events that would shape me for the rest of my future life at sea and I was longing to see the real world before I die Though I was not a writer the idea of writing this book emerged in a moment of great sadness in February 2002 In Antarctica when I started to think about how it could be that I was commanding the 2398 ton The World's First Expedition Cruise Ship MS Explorer Lindblad Explorer the Ship in The Wilderness and my destination was the Prince Gustav Sound in the Weddell Sea east of the Antarctic Peninsula in the Antarctic wilderness when one of my passengers standing behind my back suddenly said This is really going to make the boys back at the golf club jealous To write about my own experiences feels kind of strange and from the start I knew that I was incapable of producing a strict biography of all the stunning account of adventures I have had and discoveries we made in those years onboard the Lindblad Explorer in the early 70s as well as on the Explorer
