Twin Sister:

The Twin Sisters, 1852 **Prophets in the Quran** Brannon Wheeler, 2002-06-18 What was the name of Noah's son who did not survive the Flood? Why do Pharaoh and Haman build the Tower of Babel? For what reasons does Moses travel to the ends of the Earth? Who is the Horned One who holds back Gog and Magog until the Day of Judgement? These are some of the questions answered in the oral sources and Quran commentaries on the stories of the prophets as they are understood by Muslims. Designed as an introduction to the Quran with particular emphasis on parallels with Biblical tradition, this book provides a concise but detailed overview of Muslim prophets from Adam to Muhammad. Each of the chapters is organized around a particular prophet, including an English translation of the relevant verses of the Quran and a wide selection of classical, medieval, and modern Muslim commentaries on those verses. Quran commentaries include references to Sunni and Shi'i sources from Spain, Central Asia, the Middle East, and Africa. An extensive glossary provides an annotated list of all scholarly transmitters and cited texts, with suggestions for further reading. This is an excellent book for undergraduate courses and students in divinity and seminary programmes. Comparisons between the Quran and Bible, and among Jewish, Christian, and Islamic exegesis, are highlighted. Oral sources, references adapted from apocryphal and pseudepigraphical works, and inter-religious dialogue are all evident throughout these stories of the prophets. This material shows how the Quran and its interpretation are integral to a fuller and more discerning understanding of the Bible and its place in the history of Western religion.

The History of al-Ṭabarī Vol. 1, 2015-06-10 Volume I of the thirty-eight volume translation of al-Ṭabarī's great History begins with the creation of the world and ends with the time of Noah and the Flood. It not only brings a vast amount of speculation about the early history of mankind into sharp Muslim focus, but it also synchronizes ancient Iranian ideas about the prehistory of mankind with those inspired by the Quran and the Bible. The volume is thus an excellent guide to the cosmological views of many of al-Ṭabarī's contemporaries. The translator, Franz Rosenthal, one of the world's foremost scholars of Arabic, has also written an extensive introduction to the volume that presents all the facts known about al-Ṭabarī's personal and professional life. Professor Rosenthal's meticulous and original scholarship has yielded a valuable bibliography and chronology of al-Ṭabarī's writings, both those preserved in manuscript and those alluded to by other authors. The introduction and first volume of the translation of the History form a ground-breaking contribution to Islamic historiography in English and will prove to be an invaluable source of information for those who are interested in Middle Eastern history but are unable to read the basic works in Arabic.

Hands Off My Belly Shawn A. Tassone, 2009-12-30 Expectant mothers are virtual magnets for unsolicited advice. Mothers, grandmothers, aunts, sisters, sisters-in-law, new mothers, friends, and even strangers offer what seems to be an endless supply of supposedly authoritative opinions on every aspect of pregnancy. A craving for spicy food denotes a boy. Carrying the baby low denotes a girl. Besides gender predictions, a pregnant woman is also apt to acquire an earful of advice about miscarriage, dietary habits, and cravings, hair growth, weight gain, and childbirth. And of

course everyone wants to touch her belly In this engaging humorous and very informative book Drs Shawn A Tassone and Kathryn Landherr experienced obstetricians and gynecologists a husband and wife team of physicians and parents of four children explore the most common superstitions and myths surrounding pregnancy From their combined twenty years of work in a clinic as well as their own parenting experience the authors review the anecdotes and beliefs from the slightly unusual to the stranger than fiction and compare them with the scientific evidence Moving through each stage from the early weeks of pregnancy to delivery they examine the legends about diet gender identification preterm labor the umbilical cord initiating labor and the size and movement of the fetus As they detail the scientific perspective on these varied and often amusing beliefs the authors not only entertain but provide a great deal of practical information which will ease the fears and anxieties of expectant parents as well as clear up many confusing notions If you are pregnant you owe it to yourself to get this book Better yet suggest it as the perfect shower gift to all those well meaning advice givers **The Making of the Last**

Prophet Gordon Darnell Newby,2022-11-23 The sacred biography of Muhammad has shaped Muslims perceptions of the place of Islam in the religious history of the world and located the Islamic founder and prophet as the last of God s messengers As Muslims established political control over ancient Jewish and Christian communities they also claimed hegemony over the panorama of biblical prophets and holy men In the eighth century the author of the first complete biography of Muhammad set out a plan for a history of the world that culminated with the advent of Muhammad and the religion of Islam The biography not only gave the details of Muhammad s life but also retold the stories of past prophets from an Islamic perspective The Making of the Last Prophet is an examination of the reshaping and retelling of the biblical past to form the image of Muhammad as the Seal of the prophets of God Through a translation of the reconstructed Arabic text the sources the form and uses of the eighth century biography are examined for the ways in which attitudes toward Muhammad were shaped in early Islam The work particularly underscores the interplay of Jewish Christian and other Near Eastern religious ideals in the formation of Islam s notions of prophethood *Adam and Eve Outside of Eden* Prof.M.M.
