*The Two Cultures* C. P. Snow, Charles Percy Snow, 2012-03-26 This fiftieth anniversary printing of *The Two Cultures* and its successor piece *A Second Look* in which Snow responded to the controversy four years later features an introduction by Stefan Collini charting the history and context of the debate its implications and its afterlife **THE TWO CULTURES: AND A SECOND LOOK** C.P. SNOW, 1963

**Two Cultures?** Frank Raymond Leavis, 1962 Autograph text of his Richmond Lecture given at Downing College Cambridge Hall on Michaelmas and written on the verso of student essays This was a response to Snow's Rede Lecture of 1959 entitled *The two cultures and the scientific revolution* **From Two Cultures to No Culture** Frank Furedi, 2009 In 1959 C P Snow delivered the annual Rede Lecture in Cambridge under the title of *The Two Cultures and the Scientific Revolution* Snow warned of a gap that had opened up between scientists and the literary intellectuals that made it almost impossible for the two groups to communicate Snow complained that literary intellectuals were not only ignorant of science but contemptuous of it as if scientific knowledge were unnecessary for a good education Snow believed that improvements in the teaching of science were required in order to address the world's greatest problems and that both the USA and the USSR were ahead of Britain in that respect Snow spoke with the authority of a man with a foot in both camps as a trained research scientist and a successful novelist and his lecture provoked worldwide coverage

**Social Aggression Among Girls** Marion K. Underwood, 2003-04-10 While several recent popular books address the topic of girls' meanness to one another this volume offers the first balanced scholarly analysis of scientific knowledge in this area Integrating current research on emotion regulation gender and peer relations the book examines how girls are socialized to experience and express anger and aggression from infancy through adolescence Considered are the developmental functions of such behaviors as gossip friendship manipulation and social exclusion consequences for both victims and perpetrators and approaches to intervention and prevention Presenting innovative research models and methods this is an accessible and much needed synthesis for researchers professionals and students Key Features Hot topic garnering coverage in general media e.g. *The New York Times Magazine* Accessibly written with examples clarifying abstract points Covers and integrates both physical and social aggression **Technical Bulletin**, 1921

**The Space of Culture** Sebastian Luft, 2015-10-01 Sebastian Luft presents and defends the philosophy of culture championed by the Marburg School of Neo Kantianism Following a historical trajectory from Hermann Cohen to Paul Natorp and through to Ernst Cassirer this book makes a systematic case for the viability and attractiveness of a philosophical culture in a transcendental vein in the manner in which the Marburgers intended to broaden Kant's approach In providing a philosophical study of culture Luft adheres to important Kantian tenets while addressing empirical studies of culture *The Space of Culture* culminates in an exploration of Cassirer's *Philosophy of Symbolic Forms* and argues for the extent to which Cassirer's thought was firmly rooted in the Marburg School despite his originality At the same time it shows how Cassirer opened up the philosophical study of culture to new horizons

making it attractive for contemporary philosophy *Two Cultures?* F. R. Leavis, 2013-08-29 In this first annotated edition of F R Leavis famous critique of C P Snow s influential argument about the two cultures Stefan Collini reappraises both its literary tactics and its purpose as cultural criticism The edition will enable new generations of readers to understand what was at stake in the dispute and to appreciate the enduring relevance of Leavis s attack on the goal of economic growth In his comprehensive introduction Collini situates Leavis s critique within the wider context of debates about modernity and prosperity not just the two cultures of literature and science Collini emphasizes the difficulties faced by the cultural critic in challenging widely held views and offers an illuminating analysis of Leavis s style The edition provides full notes to references and allusions in Leavis s texts C. P. Snow and the Struggle of Modernity John de la Mothe, 2013-09-06 The condition of modernity springs from that tension between science and the humanities that had its roots in the Enlightenment but reached its full flowering with the rise of twentieth century technology It manifests itself most notably in the crisis of individuality that is generated by the nexus of science literature and politics one that challenges each of us to find a way of balancing our personal identities between our public and private selves in an otherwise estranging world This challenge which can only be expressed as the struggle of modernity perhaps finds no better expression than in C P Snow In his career as novelist scientist and civil servant C P Snow 1905 1980 attempted to bridge the disparate worlds of modern science and the humanities While Snow is often regarded as a late Victorian liberal who has little to say about the modernist period in which he lived and wrote de la Mothe challenges this judgment reassessing Snow s place in twentieth century thought He argues that Snow s life and writings most notably his *Strangers and Brothers* sequence of novels and his provocative thesis in *The Two Cultures and the Scientific Revolution* reflect a persistent struggle with the nature of modernity They manifest Snow s belief that science and technology were at the center of modern life **Literary Criticism, Culture and the Subject of 'English': F.R. Leavis and T.S. Eliot** Dandan Zhang, 2020-09-23 This volume considers the highly convoluted relationship between F R Leavis and T S Eliot comparing their ideas in literary and cultural criticism and connecting it to the broader discourse of English Studies as a university subject that developed in the first half of the twentieth century Comparing and contrasting all the many writings of Leavis on Eliot and the two on Lawrence the study examines how Eliot is formative for the theory and practice of Leavis s literary criticism in both positive and negative ways and investigates Lawrence s significance in relation to Leavis s changing attitude to Eliot It also examines how profound differences in social cultural religious and national thinking strengthened Leavis s alliance with Lawrence to the detriment of his relationship with Eliot These differences between the two writers are presented as dichotomies between nationalism and Europeanism internationalism ruralism organicism and industrialism metropolitanism and relate to the two men s views on literary education the subject of English and the position of the Classics in the curriculum It explores how Leavis s increasingly conflicted feelings about a figure to whom he owed an enormous critical debt and inspiration but whose various beliefs and

literary affiliations caused him much misgiving result in a deep sense of division in Leavis himself which he sought to transfer onto Eliot as what he called a pathological case

**Man and Culture** Clark Wissler, 1923 1923 A group of lectures given by Wissler at the State Universities of Michigan Iowa Nebraska and Kansas and also before the Anthropological Society of St Louis and the Galton Society of New York The object of these lectures was to present the problems and scope of contemporary anthropology and recognizing that the most pertinent question before us as a people is the relation of civilization to man the emphasis in these pages has been placed upon culture and its biological background

*The Last Half Century of Chinese Overseas* Elizabeth Sinn, 1998-01-01 The papers collected in this anthology look at Chinese overseas residing in five continents in the half century after the Second World War from many new perspectives Some papers raise questions about the Chinese diaspora in broad conceptual terms and inquire into the meaning of being Chinese outside China Other papers examine life in local communities analysing how historical and contemporary circumstances affect their lives and the ways they negotiate their identity in the host country In depth case studies further bring out the complexity of the subject by identifying the range of variables including the social economic political and cultural characteristics of the places of origin and destinations as well as emigration and immigration policies which affect the patterns of migration and the nature of settlement in any place at any time This is especially highlighted in chapters using a comparative approach With scholars from different disciplines using different types of data methodologies and theoretical tools the richness of the subject matter becomes apparent This volume will no doubt go a long way both to broaden and deepen our understanding of the Chinese overseas and by showing the many possibilities for further investigation to strengthen Chinese overseas as a field of study
