Persons and Minds Joseph Margolis, 2012-12-06 Persons and Minds is an inquiry into the possibilities of materialism Professor Margolis starts his investigation however with a critique of the range of contemporary materialist theories and does not find them viable None of them he argues can accommodate in a convincing way the most distinctive features of the mental life of men and of lower creatures and the imaginative possibilities of discovery and technology p 8 In an extraordinarily rich analysis Margolis carefully considers and criticizes mind body identity theories physicalism eliminative materialism behaviorism as inadequate precisely in that they are reductive He argues then for ramified concepts of emergence and embodiment which will sustain a philosophically coherent account both of the distinctive non natural character of persons and of their being naturally embodied But Margolis provokes us to ask what is an embodied mind The crucial context for him is not the plain physical body as such but culture Persons he writes are in a sense not natural entities they exist only in cultural contexts and are identifiable as such only by reference to their mastery of language and of whatever further abilities presuppose such mastery p 245 The hallmark of persons in Margolis's account is their capacity for freedom as well as their physical endowment Thus he writes their characteristic powers in effect their freedom must inform the order of purely physical causes in a distinctive way p 246

Theological Attention Derek S. King, 2025-11-20 What is attention How do we use it And why does it matter In an age of distraction in which we feel overrun by attention diverting devices these questions are as important as ever While scientists and philosophers have explored these questions in part theologians have largely ignored them Despite this the Christian theological tradition contains many rich resources for pursuing answers to these questions Theological Attention attempts to mine resources from this tradition and psychology and philosophy to answer them In the first part of the book Theological Attention explores what attention is Though the aim is to

develop a fresh way of thinking about our attention called theological attention it considers basic attention defined in conversation with psychology and philosophy and virtuous attention defined in conversation with moral philosophy The focus remains however on theological attention which foregrounds God and his relationship to us in how we conceive of attention In the second part the book considers the role of theological attention and spiritual formation When we reorient our thinking about attention around God and how God relates to us we see too that attention is crucial for our spiritual formation How we attend determines how we are formed

Adventures in Philosophy John Crauford Wordsworth,1926

In Defense of Miracles R. Douglas Geivett,Gary R. Habermas,2025-10-16 Rumors of deception have surrounded claims of Jesus resurrection ever since the soldiers appointed to guard his tomb made their report to the Jewish authorities But no one has led the philosophic charge against miracles quite as influentially as David Hume with his 1748 essay *Of Miracles* Refined revised restated his arguments still affect philosophic discussions of miracles today During the twentieth century strong arguments have been raised by Antony Flew professor emeritus at Keele University in England Flew has contributed a fresh statement of his objections to the idea of God s acting in history just for this volume which also includes Hume s classic critique as a part of the case against miracles In response Douglas Geivett and Gary Habermas have assembled a distinguished team of scholars to rebut the objections and set forth the positive case for God s action in history Richard Purtill clarifies the word miracle while Norman Geisler critiques Hume s case against miracles Francis Beckwith and Winfried Corduan assess how we would recognize miracles in the past and in the present Ronald Nash examines naturalism s exclusion of miracles and shows its self referential incoherence J P Moreland discusses whether science properly rules out the possibility of miracles God s existence and action in history are probed by David Beck and Stephen Davis while Douglas Geivett argues that within a theistic framework it is reasonable to expect miracles as confirmation of claims to special revelation David Clark examines miracles within the context of various world religions Robert Newman John Feinberg William Lane Craig and Gary Habermas conclude by investigating fulfilled prophecy the virgin birth and incarnation of Jesus the empty tomb and the resurrection appearances In *Defense of Miracles* is a comprehensive up to date discussion that should not be overlooked by anyone concerned with the current debate over miracles
