A Calculus of Angels Greg Keyes, 2015-12-22 In an alternate eighteenth century Europe devastated by alchemical disaster Sir Isaac Newton and his able assistant Benjamin Franklin confront enemies who seek humankind's destruction Sir Isaac Newton's discovery of philosopher's mercury in 1681 gave rise to a remarkable new branch of alchemical science Forty years later the world stands poised on the brink of a new dark age England is in ruins crushed by an asteroid called to Earth by the very alchemy Newton unleashed France is in chaos following the long delayed death of Louis XIV Cotton Mather Blackbeard and the Choctaw shaman Red Shoes set sail from the American colonies to investigate the silence lying over the Old World And in Russia Tsar Peter the Great now host to the evil entity that kept the Sun King alive seizes a golden opportunity for conquest as he marches his unstoppable army across a devastated continent Meanwhile Newton and his young apprentice Ben Franklin hide out in Prague awaiting the inevitable violent collision of all these disparate elements human and demonic alike while a fugitive Adrienne de Mornay de Montchevreuil pursues the secrets of the malakim and her own role in their conspiracy to obliterate humankind The second volume of the Age of Unreason series Greg Keyes's masterwork of alternate history A Calculus of Angels brilliantly expands the scope of the world he introduced in Newton's Cannon as an unforgettable cast of historical heavyweights collide on a different Earth where magic and science coexist

Color It True Murray Pomerance, 2021-12-16 This often startlingly original book introduces a new way of thinking about color in film as distinct from existing approaches which tend to emphasize either technical processes and or histories of film coloration or the

meanings of color as metaphor or symbol or else part of a broader signifying system Murray Pomerance's latest meditation on cinema has the author embed himself in various ways of thinking about color not ways of framing it as a production trick or a symbolic language but ways of wondering how the color effect onscreen can work in the act of viewing Pomerance examines many issues including acuity dreaming interrelationships saturations color contrasts color and performance color as a performance aid or even performance substitute and more The lavender of the photographer's seamless in Antonioni's *Blow Up* taken in itself as an explosion of color worked into form and then considered both as part of the story and part of our experience The 14 chapters of this book each discuss a single primary color as regards to our experience of cinema After opening the idea of such an exploration in terms of the history of our perception and the variation in our experience that color germinates *Color it True* takes form *The Beatles in Scotland* Ken McNab, 2012-09-28 The Fab Four George John Paul and Ringo a quartet of working class kids whose magical songs and revolutionary influence still inspires four decades on More has been written about The Beatles than any other rock group in history and it is difficult to imagine that there remains anything new to say but lifelong Beatles fan Ken McNab reveals for the first time in intimate detail the pivotal part Scotland played in the genesis of the group and the extraordinary connections that were fostered north of the border before during and after their meteoric rise to global fame McNab follows The Beatles as rough and ready unknowns on their first tour of Scotland in 1960 when they were booed off stage in Bridge of Allan and again in 1964 as all conquering heroes He also discovers that the momentous decision to break up the band was made in Scotland and provides details of the McCartneys lives in Mull of Kintyre and Lennon's childhood holidays in Durness **The Age of Unreason** Greg Keyes, 2017-11-28 Ben Franklin must save the world when Isaac Newton unleashes dark magic in this ambitious alternate history series by a New York Times bestselling author Library Journal Greg Keyes reimagines the eighteenth century as an era of apocalyptic sorcery in which a young printer's apprentice named Benjamin Franklin joins forces with a host of historical personages to prevent humankind's annihilation by demons and black magic inadvertently released by the great British alchemist Sir Isaac Newton Newton's Cannon Isaac Newton's discovery of philosopher's mercury threatens to destroy all human life on Earth unless he and his new American protégé young Benjamin Franklin can keep the substance out of the malevolent hands of France's King Louis XIV An intricately crafted elegantly delivered story filled with idealism and betrayal adventure and philosophy fascinating Library Journal *A Calculus of Angels* A demonic conspiracy has destroyed England while unleashing chaos and terror upon the world A possessed Peter the Great marches his conquering armies across a devastated Europe And Newton and Franklin prepare for Armageddon *Empire of Unreason* As eternal winter descends upon Earth Franklin returns to the American colonies to hone his alchemical skills and ready his secret cabal of scientists Native Americans and former slaves for the upcoming battle for humankind's survival The most original fantasy I have read in years Kevin K Anderson New York Times bestselling author *The Shadows of God* Angels and demons watch and wait as the last warriors of dead Europe invade
