Typhons Children:

Typhon's Children Toni Anzetti, 1999 To the new colonists the teeming ocean dominated planet of Typhon seems a wondrous and exotic paradise until the land erupts with incomprehensible violence consuming the colony in a fiery hell Their supplies lost the survivors find themselves struggling against a world where death wears many guises But the deadliest menace strikes from within for every child born on Typhon suffers strange degenerative mutations Unless the situation can be reversed the Typhon colony is doomed Per Langstaff is a scientist obsessed with the life and death mystery certain that the answer to the colony s survival lies with the virulent planet itself His staunchest ally Dilani is a rebellious young girl born deaf to sound and convention an orphan as unruly as the oceans themselves Together these two outcasts bound by a shared love of the depths embark on an unforgettable journey that will take them to the utmost reaches of humanity and beyond
