The Spy's Guide to Scouting and Reconnaissance Jim Wiese, Harold Keith Melton, 2003 **The U-2 Spy Plane** Roman Poroshyn, 2014-03-26

Airplanes are created to fly not to hang down from a ceiling in museums or rust in hangars This statement is especially true when it comes to the U 2 spy plane a k a Dragon Lady This relict of the Cold War is still in operation after more than fifty years since its first flight in 1955 Designed for high flight the U 2 is at home at an altitude of more than 70 000 feet At an altitude so high land under the plane does not appear to be flat anymore A pilot can see the curvature of the surface of the

Earth It is like being on a spaceship with one exception Gravity is still present The U 2 continues to offer the response time unmatched by spy satellites the ability to communicate directly with troops on the ground and lower costs compared to drones This illustrated book presents some interesting facts from the Dragon Lady s rich past and exciting present *The U-2 Over the Soviet Union: America's Famous Cold War Spy Plane from a Soviet Perspective* Dmitry Degtev, **50 Years of the U-2** Chris Pocock,2005 When the U 2 first took off in 1955 no one involved in its top secret project dreamt that this unique reconnaissance aircraft would still be flying today The long story of the Dragon Lady is amazing and complex this book tells it all in unprecedented detail from the early days overflying the Soviet Union under CIA sponsorship to the Cuban Missile Crisis and on to the Vietnam War The epic missions over Communist China were flown by nationalist pilots from Taiwan How the U 2 was improved enlarged and put back into production twice It led the real time recce revolution with data links and high tech sensors Then it played a key role in Desert Storm over Bosnia and Kosovo and most recently over Afghanistan and Iraq According to the CIA s own historian Chris Pocock is the foremost authority on the U 2 To write this book he flew in the aircraft conducted 250 interviews and analysed more than 1 000 declassified documents *Hunt for the U-2* Krzysztof Dabrowski,2020-03-19 The Hunt for the U 2 is a succinct operational history of the confrontations between that reconnaissance aircraft and those trying to catch it and the impact these operations had in not so distant history Richly illustrated with photographs and full colour aircraft profiles **A Brotherhood of Spies** Monte Reel,2019-05-21 A thrilling dramatic narrative of the top secret Cold War era spy plane operation that transformed the CIA and brought the U S and the Soviet Union to the brink of disaster On May 1 1960 an American U 2 spy plane was shot down over the Soviet Union just weeks before a peace summit between the two nations The CIA concocted a cover story for President Eisenhower to deliver assuring him that no one could have survived a fall from that altitude And even if pilot Francis Gary Powers had survived he had been supplied with a poison pin with which to commit suicide But against all odds Powers emerged from the wreckage and was seized by the KGB He confessed to espionage charges revealing to the world that Eisenhower had just lied to the American people and to the Soviet Premier Infuriated Nikita Khrushchev slammed the door on a rare opening in Cold War relations In *A Brotherhood of Spies* award winning journalist Monte Reel reveals how the U 2 spy program principally devised by four men working in secret upended the Cold War and carved a new mission for the CIA This secret fraternity made up of Edwin Land best known as the inventor of instant photography and the head of Polaroid Corporation Kelly Johnson a hard charging taskmaster from Lockheed Richard Bissell the secretive and ambitious spymaster and ace Air Force flyer Powers set out to replace yesterday s fallible human spies with tomorrow s undetectable eye in the sky Their clandestine successes and all too public failures make this brilliantly reported account a true life thriller with the highest stakes and tragic repercussions *FBIS Daily Report* ,1996 **The Pueblo Incident** Mitchell B. Lerner,2002 Mitchell Lerner now examines for the first time the details of this crisis and uses the incident as a window through which to better

understand the limitations of American foreign policy during the Cold War Drawing on thousands of pages of recently declassified documents from President Lyndon Johnson's administration along with dozens of interviews with those involved Lerner provides the most complete and accurate account of the Pueblo incident to date BOOK JACKET *The U-2 Over the Soviet Union* Dmitry Degtev, 2026-01-30 On 1 May 1960 a traditional military parade was held in Moscow What stood it out from the previous ones however was the number of missiles and in particular the ground to air anti aircraft variants that were present There was perhaps nothing surprising in this dominance of missiles for Nikita Khrushchev had already declared that the so called Rocket Troops were to be the main branch of the armed forces Not for nothing had the Politburo allocated huge sums of money and the best scientific minds to the on going development of these weapons and units In fact there was no fly past over the Red Square in 1960 as Khrushchev considered aircraft to be a dying species From then on it was being stated military aviation would be assigned little more than an auxiliary role in the defense of the Soviet Bloc Khrushchev's assessment of the future of aircraft was seemingly confirmed by an incident that occurred more than 1 000km to the east of Moscow For what the spectators and participants of the grand rocket parade did not know was that in one of the key events of the Cold War an American high altitude reconnaissance Lockheed U 2 jet had barely hours before been shot down over the Urals by one of the types of missiles that were passing before them Based on documents held in the CIA's archives declassified documents released by the Russian Ministry of defense and the memoirs of participants in the events in question this book explores the true story of the preparation implementation and consequences of the U 2 reconnaissance flights over the Soviet Union Eastern Europe and Cuba between 1956 and 1962 For the first time the author reveals the military plans that were activated in the Eastern Bloc to combat the U 2 missions and how the Soviets tried unsuccessfully to create a fighter interceptor to operate in the stratosphere This book also reveals which secret locations and objects were photographed by the U 2 including those which remained unidentified and investigates where the secret centre of the Russian atomic project was actually located and whether the U 2 was able to find it What was the true reliability and value of the information received from America's U 2 operations The reader will discover which objects were confiscated from Francis Gary Powers the pilot of the U 2 brought down following his capture and why was he had been issued with women's jewelry and watches before his fateful flight The Soviet view of the incursions by Powers and his fellow U 2 pilots is laid bare revealing just why the Powers name is as widely known in Russia as that of the cosmonaut Yuri Gagarin
