Ultimate Enemy:

Come, Lord Jesus! Stephen Motyer, 2016-04-21 The second coming of Jesus Christ is the core of the biblical worldview the climax of the biblical message the cornerstone of biblical theology and the centrepiece of authentic biblical faith for the twenty first century At the heart of this bold opening statement by Stephen Motyer is the conviction that Jesus Christ is the centre of the Scriptures even though he only appears at the end For the New Testament writers Jesus Christ revolutionized their understanding of the Scriptures and gave them a new centre around which to interpret the work of God in the world and the climax of that work is the second coming of that same Jesus Christ Jesus himself used the language of the Scriptures to promise his coming again the coming of the Son of Man Hence we need the whole of Scripture to understand what the second coming means for us today The fact that the Bible ends with the prayer Come Lord Jesus Revelation 22 20 is deeply appropriate The second coming is the end of the biblical message its omega point its grand finale the denouement when all the players in the drama of earth history both human and angelic are gathered in the drawing room to hear the Master unpack the plot and give the verdict Motyer s comprehensive stimulating study is divided into two parts Part One The biblical frame examines three Old Testament passages and lays the foundation for Part Two New Testament hopes and visions which explores a series of key texts He focuses on the second coming rather than on millennialism or the end times in order to provide the fundamental biblical theology that must underlie our whole sense of God s future for his world **The Johns Hopkins University Studies in Historical and Political Science**, 1926 Strategic Instincts Dominic D. P. Johnson, 2022-08-30 A very timely book Anne Marie Slaughter CEO of New America How cognitive biases can guide good decision making in politics and international relations A widespread assumption in political science and international relations is that cognitive biases quirks of the brain we all share as human beings are detrimental and responsible for policy failures disasters and wars In Strategic Instincts Dominic Johnson challenges this assumption explaining that these nonrational behaviors can actually support favorable results in international politics and contribute to political and strategic success By studying past examples he considers the ways that cognitive biases act as strategic instincts lending a competitive edge in policy decisions especially under conditions of unpredictability and imperfect information Drawing from evolutionary theory and behavioral sciences Johnson looks at three influential cognitive biases overconfidence the fundamental attribution error and in group out group bias He then examines the advantageous as well as the detrimental effects of these biases through historical case studies of the American Revolution the Munich Crisis and the Pacific campaign in World War II He acknowledges the dark side of biases when confidence becomes hubris when attribution errors become paranoia and when group bias becomes prejudice Ultimately Johnson makes a case for a more nuanced understanding of the causes and consequences of cognitive biases and argues that in the complex world of international relations strategic instincts can in the right context guide better performance Strategic Instincts shows how an evolutionary perspective can offer the crucial next

step in bringing psychological insights to bear on foundational questions in international politics The Law of War and Neutrality at Sea Robert W. Tucker, 2022-07-19 Published at a time when international law was processing the challenges introduced during World War II and the Korean Conflict and when the United Nations the World Court and other new international bodies were exerting influence as judicial bodies Tucker's analysis was a timely guide to a legal field in the midst of unprecedented change Tucker is professor emeritus of American foreign policy at the Nitze School of Advanced International Studies Johns Hopkins University A graduate of the U S Naval Academy and UC Berkeley where he earned a Ph D in political science he is the author of several notable books including *The Just War* 1960 *The Inequality of Nations* 1977 and with David C Hendrickson *The Imperial Temptation The New World Order and America's Purpose* 1992 xiii 448 pp

Imagining War Elizabeth Kier, 2017-03-14 In this innovative theoretical book Elizabeth Kier uses a cultural approach to take issue with the conventional wisdom that military organizations inherently prefer offensive doctrines Kier argues instead that a military's culture affects its choices between offensive and defensive military doctrines Drawing on organizational theory she demonstrates that military organizations differ in their worldview and the proper conduct of their mission It is this organizational culture that shapes how the military responds to constraints such as terms of conscription set by civilian policymakers In richly detailed case studies Kier examines doctrinal developments in France and Great Britain during the interwar period She tests her cultural argument against the two most powerful alternative explanations and illustrates that neither the functional needs of military organizations nor the structural demands of the international system can explain doctrinal choice She also reveals as a myth the argument that the lessons of World War I explain the defensive doctrines in World War II *Imagining War* addresses two important debates It tackles a central debate in security studies the origins of military doctrine And by showing the power of a cultural approach it offers an alternative to the prevailing rationalist explanations of international politics Originally published in 1997 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Reading**

Hitler's Mind Norman Ridley, 2022-07-20 Most strongly associated with Prime Minister Neville Chamberlain it is often stated that Britain's policy of appeasement was instituted in the 1930s in the hope of avoiding war with Hitler's Nazi Germany At the time appeasement was viewed by many as a popular and seemingly pragmatic policy In this book the author sets out to show how appeasement was not a naive attempt to secure a lasting peace by resolving German grievances but a means of buying time for rearmament By the middle of the 1930s British policy was based on the presumption that the balance of power had already dramatically shifted in Germany's favour It was felt that Britain chiefly for economic reasons

was unable to restore the balance and that extensive concessions to Germany would not satisfy Hitler whose aggressive policies intensified the already high risk of war The only realistic option and one that was clearly adopted by Neville Chamberlain was to try to influence the timing of the inevitable military confrontation and in the meantime pursue a steady and economically sustainable program of rearmament Appeasement would buy that time for the British government Crucially this strategy required continuously updated and accurate information about the strength current and future of the German armed forces especially the Luftwaffe and an understanding of their military strategy Piercing the Nazis veil of secrecy was vital if the intelligence services were to build up a true picture of the extent of German rearmament and the purposes to which it might be put The many agents codebreakers and counter espionage personnel played a vital role in maximising the benefits that appeasement provided even as war clouds continued to gather These individuals were increasingly handed greater responsibility in a bid to inform British statesmen now scrambling to prepare for a catastrophic confrontation with Germany In Reading Hitler s Mind Norman Ridley reveals the remarkable efforts made by the tiny underfunded and often side lined British intelligence services as they sought to inform those whose role it was to make decisions upon which the wheels of history turned *The Doctrine of Continuous Voyage* Herbert Whittaker Briggs,1926 **Lloyd's Reports of Prize Cases** John Bridge Aspinall,1917 **Arnould on the Law of Marine Insurance and Average** Sir Joseph Arnould,Edward Louis De Hart,1924 Lloyd's Reports of Prize Cases ... During the European War John Bridge Aspinall,Edward Louis De Hart,1919 **Editorial Information Service** ,1927 *Information Service* ,1928 **Mews' Digest of English Case Law** John Mews,1921 **Law Journal** ,1921 **Law Journal Quinquennial Digest** ,1921 *Prize Cases Heard and Decided in the Prize Court During the Great War by Sir Samuel Evans, President of the Probate, Divorce, and Admiralty Division* Sir Samuel Thomas Evans,1918 **Christ: and the World at War** Randall Thomas Davidson,1917 **European War Pamphlets** ,1916 Recent History of the United States Frederic Logan Paxson,1921 *International Law Chiefly as Interpreted and Applied by the United States* Charles Cheney Hyde,1922
