

A dirt road winds through a field of red flowers under a cloudy sky. The road is the central focus, leading the eye from the foreground into the distance. The flowers are a vibrant red, and the sky is a pale, overcast grey. The overall mood is serene and contemplative.

Each of us has two minds: a waking mind and a sleeping mind. Our waking mind is what thinks and talks and reasons. But the sleeping mind is more powerful. It sees deeply to the heart of things. It is the part of us that dreams. It remembers everything. It gives us intuition. Your waking mind does not understand the nature of names. Your sleeping mind does. It already knows many things that your waking mind does not.

**Sleeping to Dream and Dreaming to Wake Up!** Vijay Srinath Kanchi,2022-11-08 Dreams play a significant role in our life meaningfully affecting us in the development of our personality and our spiritual journey They are an everyday experience for any human being Dreams have always been of great interest to poets and philosophers alike since ancient times and examples are aplenty in Indian and Western scriptures However it is an uphill task for an ordinary person to fully appreciate the intricacies and significance of dreams in the day to day life It is here that this book proves as an invaluable guide providing deep understanding on the nature of dream and sleep This book is a repertoire of human wisdom gathered for centuries and attested by the modern science offering enormous insights into our dream and deep sleep states It asks from a common man s point of view many a question that perturb us and provides answers to them from the scientific and spiritual perspectives in a captivating way Some such questions include Do we see dreams in black and white or in colour What does a visually challenged person see in his dreams Why are some of our dreams extraordinarily vivid with electric colours the clarity and brilliance of which we may never encounter in our ordinary waking lives Why are we non reflective irrational in our dreams Are the dream time and waking time equal How does our memory work in dream state Why do we forget our dreams and is it possible to improve dream recall and cultivate awareness in dreams Why do we fail to distinguish a dream object from the physical world object while we are dreaming If the dream experience exactly feels like the real world and we fail to distinguish it from the waking world while we are dreaming how can we be certain that we are not dreaming now How does a dream contain various persons exhibiting opposite emotions at the same time when all the dream characters including the witnessing dreamer are produced out of single mind of the dreaming person Can we intentionally transform the dream scenarios If so what would be the philosophical implications of it Can dreams and sleeps be utilized for spiritual elevation and many more questions we always wondered about the daily eight hours of our bed time but never got the right answers to We find new meanings and ways in dealing with our dreams in this volume therefore it is a must read for every dream enthusiast as well as any serious spiritual seeker

**Waking the Sleeping Mind** John Eric Sparacio,2005-09 This book is a streaming verbal form of consciousness inspired by my own unfolding levels of perception of the world around me In as much as each page is limited to a single thought or statement it is its simplicity of word that gives the reader a vast amount of thought to debate within ones self or group It is a reflection of the beginning thought patterns I have experienced which helped my mind awaken and to ignite my desire for learning and which I hope will have the same effects on you the reader It also combines art with literature in as much as the design is centered a place where all of us strive to be a place where I see as the ultimate place of peace The reader also should feel free to make his or her own notes on the blank space around each page as their consciousness unfolds The black and white design represents the duality of life and the ovoid form on the cover is the God image of the eternal The reader will take notice to the name under my birth name a birth name is assigned to us this name is my chosen name and means message of hope in Indian The entire book is conscious thought voids of any structural distractions on the mind such as page numbers too many words which can lead to thought exhaustion colors which can confuse the concept and again all in the center for the place we strive for I hope you all have a great experience in this journey through my minds eye and will walk away a bit more enlightened for as Jesus said through knowledge and wisdom you gain enlightenment Good journey JESAadesh Amal
