Rewilding Food and the Self Tristan Fournier, Sébastien Dalgarrondo, 2022-11-04 This volume contributes to the return to nature movement that is very much in vogue in contemporary European societies by examining the place of food and eating in the rewilding process It is divided into three parts each of which consists of conversations between social scientists with fieldwork collected from across Denmark Finland France Italy Norway and Switzerland The first part focuses on the ways in which the hunter gatherer livelihood has been transformed into a resilient simpler and ecological way of life It is dedicated to hunting and identifies the contexts in which large wild game meat is consumed and the reasons why such a product is still valued today The second part shows how some practices that aim to reconnect with natural processes are developing within a market economy Case studies on natural wine and fasting retreats help us to identify the promises that producers and promoters are relying on in order to disseminate them Finally the third part considers how this process of rewilding food is expressed in post modernity By focusing on two normative frameworks in which the rhetoric of the wild is mobilized although it is not expected to be in these terms urbanity and the gender order the goal is to understand the extent to which referring to the wild in food discourses and practices contributes to challenging our identities and to creating possible forms of

emancipation This book will be of great interest to students and scholars interested in food cultures human nature relationships and sustainable diets

Red, White & Everything Else Timothy Kraskey,Northern Wilds,2020-10-25 The recipes in this cookbook call for wild game but you can substitute any red meat you'd like for the elk venison antelope buffalo or beef and it will still be delicious For the white meat recipes you can use turkey pheasant grouse or chicken The remainder of the book consists of rubs marinades vegetables fish rice or pastas I like to cook most game meats on a charcoal or pellet grill If you don't have the time the next best way is on a gas grill or in the oven Charcoal or pellets just adds its own special flavor especially if using flavored woods like oak cherry or apple to add another layer of flavor Some of the recipes are Asian inspired and lend themselves to using a wok or large skillet When it comes to herbs fresh is best I do often use dried spices too but fresh ones always have a more robust flavor Most wild game meat has very little to no fat so many of

these recipes use bacon to add fat and flavor Adding some fat also helps keep the wild game meat from drying out And besides who doesn't like bacon <https://shop.northernwilds.com/collections/books/products/red-white-and-everything-else-wild-game-cooking-at-its-best>
