The Controversy Over Capitalism: Studies in the Social Philosophy of Russian Populists, by A. Walicki Andrzej Walicki,1969 **Russian Nationalism, Past and Present** G. Hosking,R. Service,1998-07-15 This book looks at the past and present condition of Russian nationalism Its chapters examine the influence of tsarist and Soviet official policies upon national identity and seek to explain the broader political social and cultural factors which helped or hindered the ambitions of rulers The changeability of Russian national consciousness is emphasised Several chapters also highlight the various long standing inhibitions to the emergence of a consolidated civic nationalism in a Russian Federation which gained its independence at the break up of the USSR *Peasant Poverty and Persistence in the Twenty-First Century* Julio Boltvinik,Susan Archer Mann,2016-08-15 Peasants are a majority of the world s poor Despite this there has been little effort to bridge the fields of peasant and poverty studies *Peasant Poverty and Persistence in the Twenty first Century* provides a much needed critical perspective linking three central questions Why has peasantry unlike other areas of non capitalist production persisted Why are the vast majority of peasants poor And how are these two questions related Interweaving contributions from various disciplines the book provides a range of responses offering new theoretical historical and policy perspectives on this peasant world drama Scholars from both South and North argue that in order to find the policy paths required to overcome peasants misery we need a seismic transformation in social thought to which they make important contributions They are convinced that we must build upon the peasant economy s advantages over agricultural capitalism in meeting the challenges of feeding the growing world population while sustaining the environment Structured to encourage debate among authors and mutual learning *Peasant Poverty and Persistence* takes the reader on an intellectual journey toward understanding the peasantry **A Different Vision** Thomas D Boston,2002-01-04 This work brings together for the first time the ideas philosophies and interpretations of North America s leading African American economists demonstrating that racial inequality has had an immense impact on African Americans daily lives **A Different Vision: Race and public policy** Thomas D. Boston,1997 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company **Liberty, Equality, and the Market** B. N. Chicherin,1998-01-01 This volume brings the remarkable writings of Russian liberal thinker Boris Nikolaevich Chicherin 1828 1904 to English language readers for the first time The collection includes key essays in which Chicherin addresses the central political and social problems that confronted Russia from 1855 to the opening years of the twentieth century Chicherin s ideological alternatives to the Bolshevik plan for revolutionary transformation of Russia not only provide valuable historical insights but also are highly relevant to current political discussion of liberalism in Russia and in the West In a comprehensive introduction to the book G M Hamburg discusses the development of Chicherin s thought and places it in historical context Chicherin Hamburg says was a powerful and

sophisticated but often misunderstood defender of civil and political rights Like his fellow liberals in Russia Chicherin was heavily influenced by German idealism and particularly by Hegel He departed from many however in favoring a market economy and advocating that reform efforts be tailored to local conditions and traditions In this collection Chicherin explores such contemporary issues as the abolition of serfdom Russian education and the need for a constitution He also tackles broad philosophical problems the nature of liberty and equality styles of political discourse and comments on such philosophers as Plato Aristotle More Machiavelli Montesquieu Hegel and Marx *Eastern Europe and the Challenges of Modernity, 1800-2000* Stefano Bianchini, 2015-03-02 This book presents a concise and comprehensive overview of the mainstream flows of ideas politics and itineraries towards modernity in Central and Eastern Europe and the Balkans over two centuries from the beginning of the nineteenth century to the end of the Gorbachev administration Unlike other books on the subject which view modernity based on the idea of Western European supremacy this book outlines the various different pathways of development and of growing industrialisation urbanisation and secularisation which took place across the region It provides rich insights on the complex networks whereby very varied ideas aspirations and policies interacted to bring about a varied pattern of progress and of integration and isolation with different areas moving in different ways and at different paces Overall the book presents something very different from the traditional picture of the two Europes Particular examples covered include agrarian reform movements in various phases different models of socialism and different models of socialist reform
