The Two Babylons:

The Two Babylons Alexander Hislop, 1998-05 Where did the practices and beliefs of Roman Catholicism come from In this scholarly classic first published over eighty years ago Alexander Hislop reveals that many Roman Catholic teachings did not originate with Christ or the Bible but were adopted from ancient pagan Babylonian religion and given Christian names

The Two Babylons Alexander Hislop, 1916 Fully Illustrated High Res Images Complete and Unabridged Expanded Seventh Edition This is the first and only seventh edition available in a modern digital edition NOTHING is left out New material not found in the first six editions Available in eBook and paperback edition exclusively from CrossReach Publications See below for A W Pink s glowing review and an intro by Alexander Hislop In his work on The Two Babylons Dr Hislop has proven conclusively that all the idolatrous systems of the nations had their origin in what was founded by that mighty Rebel the beginning of whose kingdom was Babel Gen 10 10 A W Pink The Antichrist 1923 There is this great difference between the works of men and the works of God that the same minute and searching investigation which displays the defects and imperfections of the one brings out also the beauties of the other If the most finely polished needle on which the art of man has been expended be subjected to a microscope many inequalities much roughness and clumsiness will be seen But if the microscope be brought to bear on the flowers of the field no such result appears Instead of their beauty diminishing new beauties and still more delicate that have escaped the naked eye are forthwith discovered beauties that make us appreciate in a way which otherwise we could have had little conception of the full force of the Lord s saying Consider the lilies of the field how they grow they toil not neither do they spin and yet I say unto you That even Solomon in all his glory was not arrayed like one of these The same law appears also in comparing the Word of God and the most finished productions of men There are spots and blemishes in the most admired productions of human genius But the more the Scriptures are searched the more minutely they are studied the more their perfection appears new beauties are brought into light every day and the discoveries of science the researches of the learned and the labours of infidels all alike conspire to illustrate the wonderful harmony of all the parts and the Divine beauty that clothes the whole If this be the case with Scripture in general it is especially the case with prophetic Scripture As every spoke in the wheel of Providence revolves the prophetic symbols start into still more bold and beautiful relief This is very strikingly the case with the prophetic language that forms the groundwork and corner stone of the present work There never has been any difficulty in the mind of any enlightened Protestant in identifying the woman sitting on seven mountains and having on her forehead the name written Mystery Babylon the Great with the Roman apostacy

The Two Babylons; Or, the Papal Worship Proved to Be the Worship of Nimrod and His Wife Alexander Hislop, 2006-03-01 The Providence of God conspiring with the Word of God by light pouring in from all quarters makes it more and more evident that Rome is in very deed the Babylon of the Apocalypse that the essential character of her system the grand objects of her worship her festivals her doctrine and discipline her rites and ceremonies her priesthood and their orders have all been derived from ancient Babylon and finally that the Pope himself is truly and properly the lineal representative of Belshazzar In

the warfare that has been waged against the domineering pretensions of Rome it has too often been counted enough merely to meet and set aside her presumptuous boast that she is the mother and mistress of all churches the one Catholic Church out of whose pale there is no salvation If ever there was excuse for such a mode of dealing with her that excuse will hold no longer If the position I have laid down can be maintained she must be stripped of the name of a Christian Church altogether for if it was a Church of Christ that was convened on that night when the pontiff king of Babylon in the midst of his thousand lords praised the gods of gold and of silver and of wood and of stone Dan 5 4 then the Church of Rome is entitled to the name of a Christian Church but not otherwise This to some no doubt will appear a very startling position but it is one which it is the object of this work to establish and let the reader judge for himself whether I do not bring ample evidence to substantiate my position

tjhe two babylons Alexander Hislop,2007-10-10 The two Babylons or The papal worship proved to be the worship of Nimrod and his wife The Two Babylons is a book written by Alexander Hislop which asserts and documents 2 main points 1 That the Ancient Pagan systems of worship of false gods were based on mysteries and that the genesis of those mysteries could be found within the old Babylonian chaldean system of worship 2 That the Roman Catholic Church soon after its creation which occurred 300 Years after Christ appropriated the characteristics of Pagan systems of worship in order to try to convince Pagans into thinking that the Roman Catholic System was the same as their own pagan worship
