Munsey's Magazine, 1897 **Studies in Irreversibility** Benjamin Schreier, 2009-10-02 The premise of *Studies in Irreversibility Texts and Contexts* is that there is a big difference between phenomena practices processes and events that are irreversible and those that are reversible and moreover that this difference and its manifold implications remain underappreciated so long as the analysis of culture continues to anchor itself in an emphasis on the capacities of human agency If messianic modes posit a future to justify the present and so interpret the influence of the past the papers in this collection are devoted to examining the present of experience from the perspective of its uncompromising and irreducible past finding in irreversibility a key to an interpretation of futurity Together these papers outline a method of examining experience as something more or at least other than the desire to know it and in so doing they shed light on the powerful role of normativity in the narratives we construct in and about culture Through novel analyses from the disciplines of literature art criticism history philosophy ethnic studies and ethics the contributors to this book address key questions about the nature of irreversibility What differentiates the experience of the irreversible from the experience of the reversible How is irreversibility recognized What happens when we acknowledge something to be irreversible How has society contended with irreversibility and what sorts of tools exist today to interpret its significance Wary of impetuously fixing the meaning of a still elusive concept this volume collects papers that employ a wide array of methodologies mindful that no one critical approach may yet have proved itself Irreversibility is not simply a quality of the texts examined in this volume nor is it strictly speaking a lens through which otherwise coherent or stable texts are examined rather it emerges as a model that brings together texts

and the thinking of them By together outlining a method of examining culture that moves beyond reliance on tropes such as functionalism teleology and chance tropes that have dominated twentieth century cultural analysis these papers help to inaugurate a new paradigm in the study of culture

The narrative situation in Poe's "The Tell-Tale Heart". An illustration of the captivating effect Kaja Schlothauer,2021-05-17 Essay from the year 2020 in the subject American Studies Literature grade 13 University of Hamburg language English abstract This paper focuses on the captivating effect of the autodiegetic narration and which significant differences would occur throughout The Tell Tale Heart if the narrator would be outside the diegesis not a part of the story world also called heterodiegetic narration Therefore the beginning starts with a closer interpretation of the narrator's character and their motives to plan the crime Furthermore the historical and literary context of The Tell Tale Heart contributes to the argumentation Followed by the context the term paper includes a brief analysis of mad narrators in fiction All arguments contain the information of several secondary sources The conclusion provides an overview over the crucial arguments made in the main body of the paper and ultimately combines the interpretations in a final statement The narrator in Edgar Allan Poe's The Tell Tale Heart is perhaps the most striking feature of the short story Although the protagonist declares his sanity right in the beginning of the story the reader before long learns about the evident mental illness of the narrator After all their insanity and madness result in the murder of the old man It is the feeling of paranoia surveillance and nervousness that ultimately leads to the crime The protagonist however evidently cannot be trusted and appears more and more unreliable So what is merely imagination and what is truly genuine in The Tell Tale Heart
