be stressful In this generation of Common Core Standards and high stakes testing educators are often left without the time to plan positive behavioral supports or the sanity to cultivate compassionate relationships with their students Even though they understand the critical relationship between behavior and instruction they re often left with the same hair pulling question How can I empower rather than overpower my students while still keeping a controlled classroom so that I can teach and students can learn The Empower Program delivers user friendly strategies that are realistic for educators to implement and practical for their students to use Included are Classroom Scenarios When this happens Research and Relevancy Why did that happen Concrete Strategies What can I do Ready to go Resources How can I do this tomorrow This book is not going to antagonize teachers with theoretical concepts in ideal contexts it is instead going to respect teachers and their classroom frustrations and provide them with practical steps that make buzzwords like behavior management well manageable
