

A photograph of a sunset over the ocean. The sky is a gradient of orange and yellow, transitioning into a darker blue over the water. The waves are visible in the foreground, creating a textured surface. The overall mood is serene and patriotic.

We are truly one nation, under God,
indivisible and that we must remain so
in the face of any threat to ensure our
country remains strong, united and free.

Constitutions Judith Pryor, 2007-08-09 Bringing a postcolonial perspective to UK constitutional debates and including a detailed and comparative engagement with the constitutions of Britain's ex colonies this book is an original reflection upon the relationship between the written and the unwritten constitution Can a nation have an unwritten constitution While written constitutions both found and define modern nations Britain is commonly regarded as one of the very few exceptions to this rule Drawing on a range of theories concerning writing law and violence from Robert Cover to Jacques Derrida Constitutions makes a theoretical intervention into conventional constitutional analyses by problematizing the notion of a written constitution on which they are based Situated within the frame of the former British empire this book deconstructs the conventional opposition between the margins and the centre as well as between the written and unwritten by paying very close detailed attention to the constitutional texts under consideration Pryor argues that Britain's unwritten constitution and immemorial common law only take on meaning in a relation of difference with the written constitutions of its former colonies These texts in turn draw on this pre literate origin in order to legitimize themselves The unwritten constitution of Britain can therefore be located and dislocated in postcolonial written constitutions Constitutions is an excellent addition to the bookshelves of all students of the philosophy of law political theory constitutional and administrative law and jurisprudence
