Truth About Chernobyl:

Truth About Chernobyl Григорий Медведев, 1991-05-15 A countdown beginning sixteen years before the explosion when Medvedev was chief engineer of Reactor 5 and living in Pripyat It moves by years then months then weeks then days then hours minutes and seconds to the moment of the accident Annotation copyrighted by Book News Inc Portland OR

Chernobyl: A Documentary Story Iurii Shcherbak, trans Ian Press, 1989-04-12 A documentary account of the Chernobyl disaster of April 1986 this is based on interviews with many of the participants Shcherbak considers Chernobyl to be the most important event in the USSR since World War II and felt compelled to go and live there and interview those involved

The Truth about Chernobyl Grigori Medvedev, 1991 This is an account of the events leading up to the worst nuclear disaster in history It also examines the subsequent cover up at which both politicians and technicians connived

Chernobyl, the Forbidden Truth Alla Yaroshinska, 1995 In this impassioned shocking and deeply personal story Alla Yaroshinskaya then a journalist from Zhitomir Ukraine near the Chernobyl power station describes the 1986 Chernobyl disaster and the bureaucratic and scientific corruption surrounding it Despite the government's official silence news and panic spread throughout the USSR and Europe after the horrific accident Like others Yaroshinskaya initially fled with her family in hopes of escaping the danger from radioactive fallout that exceeded that of Hiroshima by three hundred times When she returned home she discovered that people in highly contaminated areas were being resettled in ones barely less contaminated that their serious health problems were officially denied and that people had to eat locally grown contaminated food Her newspaper refused to publish her stories and instead commissioned another journalist to write more reassuring accounts Finally *Isvestia* published her articles Despite official pressure Yaroshinskaya was nominated overwhelmingly to the new parliament in 1989 This position gained her access to classified documents known as the Kremlin's Forty Secret Protocols Undaunted by threats she revealed an official cover up including lies about permissible higher radio active levels Her courageous campaign won her the Right Livelihood Award in 1992

The Truth about Chernobyl Grigori Medvedev, 1992-04-01 The chief engineer at the construction of the Chernobyl plant and an investigator after the accident gives an account of the accident and its aftermath

Digital Decision Making Ray Corrigan, 2007-07-05 Since the general public began to use the Internet in the mid 1990s there has been a vast amount of investment by governments and commerce in digital communications technologies There has also been a fair degree of confusion and sometimes controversy about the purpose and effectiveness of such technologies for example the proposed UK identity card system The far reaching implications for commerce and society of some of these decisions in invisible or opaque specialist fields however mean they should be matters of concern for every citizen This book argues Decisions should be based on an understanding of the systems technology and environment within which they operate Experts and ordinary people should work together Technology and law are evolving in restrictive rather than enabling ways It aims to stimulate an awareness of the issues and

be a readable challenging and informative introduction both for university students and the general reader to processes surrounding developments in technology and law
