Directory of publishers **The American Military Ethic** James Hugh Toner,1992-01-22 This is a book about military
professionals It outlines the personal reflections of a U S Army lieutenant captain on active duty in Europe during the
Vietnam War There the enemy was drugs boredom racism and illiteracy Few if any books concern the Vietnam era veteran
The American Military Ethic tells the story of one such veteran of basic combat training of Infantry OCS and of airborne
school who had charge of a nuclear weapons unit in Europe during the late 1960s and early 1970s First person accounts are
blended with a more traditional scholarly examination of professional military training for junior and senior officers ROTC
and the war colleges and of the American military ethic itself Toner argues that the American military ethic has undergone a
deserved rejuvenation The ethic itself which is the source of true professionalism has a sacred character for it involves its
professors in a solemn oath to preserve and to protect the republic That mission can lead officers to the ultimate test of
leadership whether to accomplish the mission or to safeguard the people for whom the leader is responsible Still this book is
not of the guts and glory variety It is a study in practical real leadership it examines leadership problems of the type real
junior officers confront daily and it explores the kinds of ethical problems real senior officers frequently confront Its thesis is
this A professional military ethic depends ultimately upon the formation of responsible character in and by its leaders for that
sound education is a necessity ROTC and senior professional military education depend therefore upon challenging serious
and substantial academic experiences In the end the American military ethic is a function of the wisdom and virtue learned
and taught by its officers This volume will be of great interest to active duty military professionals students of military history
