The Created Legend Fyodor Sologub, 2018-12-27T22:26:59Z Hidden in the forest the poet Trirodov attempts to secede from the troubled society of early twentieth century Russia to build his own utopia a school for the quiet children he cares for Nothing is ever that easy though and his personal connections to the outside world tie him into the political whirlwind of agitators factions and power struggles that threaten his solitude The Created Legend portrays a stark contrast to the protagonists of Sologub's earlier work *The Little Demon* even though the setting is the same town of Skorodozh There they varied from at best well meaning to actively malignant here the lead characters are idealistic and isolate themselves from the trials of Russian society in an attempt to maintain their idealism Trirodov sees beauty and mystery everywhere he looks and following the title works to create his own legend This volume originally titled *Drops of Blood* is the first of the Created Legend trilogy and the only one translated contemporaneously into English It was received with some bewilderment by critics the combination of current affairs and magical events proved too strange for many However treated as an early example of magic realism and with the benefit of hindsight the setting and symbolism is less shocking and more readily accessible to the modern reader This book is part of the Standard Ebooks project which produces free public domain ebooks
