## **The Unborn:**

Imagining the Fetus the Unborn in Myth, Religion, and Culture Vanessa R Sasson, Jane Marie Law, 2008-12-12 In contemporary Western culture the word fetus introduces either a political subject or a literal medicalized entity Neither of these frameworks does justice to the vast array of religious literature and oral traditions from cultures around the world in which the fetus emerges as a powerful symbol or metaphor This volume presents essays that explore the depiction of the fetus in the world's major religious traditions finding some striking commonalities as well as intriguing differences Among the themes that emerge is the tendency to conceive of the fetus as somehow independent of the mother's body as in the case of the Buddha who is described as inhabiting a palace while gestating in the womb On the other hand the fetus can also symbolically represent profound human needs and emotions such as the universal experience of vulnerability The authors note how the advent of the fetal sonogram has transformed how people everywhere imagine the unborn today giving rise to a narrow range of decidedly literal questions about personhood gender and disability *The Unborn Patient* Michael Richard Harrison, Mitchell S. Golbus, Roy A. Filly, 1984 *Bankei Zen*, 1994-01-23 The eccentric Bankei 1622-1693 has long been an underground hero in the world of Zen At a time when Zen was becoming overly formalized in Japan he stressed its relevance to everyday life insisting on the importance of naturalness and spontaneity This volume presents his teachings as refreshing and iconoclastic today as they were three hundred years ago in a fluent translation by Peter Haskell accompanied by a vivid account of Bankei's life and times illustrations and extensive notes for the scholar *Abortion* United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Constitutional Amendments, 1974 *Roe V. Wade Is Unconstitutional as Justice Blackmun Lied* Daniel McTaggart, 2017-06-23 This book is unique in that I say key ideas that no one else has even thought of For example there are three distinct proofs that the unborn is a human being and constitutional person One is a conclusion of the American Medical Association in the early 1870s that has not been retracted although overlooked by the modern AMA The second is a definition that can be found in many office dictionaries I am the only one who knows about this The third is an intentional error of omission by Justice Blackmun In other words there exist objective proofs that this unborn child is a fixture in the constitution This means that the pro lifers have been right all along only missing the clinching arguments No longer should abortions be performed for health privacy or liberty principles When the life of two humans clash it is a medical decision as to which shall live For this reason I have suggested a new code of Ethics and Policy and Procedures to be followed I also urge legislatures to essentially take a hands off's approach and enact legislation uniform in all the states to the effect of leaving the matter entirely in the hands of state medical associations and societies The law in California Iowa and Nebraska and elsewhere should all be identical in my view Once Roe v Wade is discredited Doe V Bolton is also no longer good law so I urge out with the old in with the new I suggest that pro life rallies on the streets be discontinued immediately and efforts at lobbying the medical profession and state lawmakers as soon as possible Under my
