## **The Unknown War:**

The Unknown War Arūnas Streikus, 2022-05-31 The armed anti Soviet resistance movement which arose in the second half of 1944 in Lithuania as Soviet forces began to reoccupy the Baltic countries and Galicia sparking a nearly decade long fierce military conflict has yet to become established in the common narrative of contemporary European history However controversy regarding the nature of this war after the war and its legacies constitutes one of the core elements in the contemporary information warfare waged by Russia against its neighbouring countries The origins of various distortions surrounding the story of the partisan war in the western borderlands of the Soviet Union can even be traced to the final stages of that war when Soviet propaganda sought to discredit the campaign as a battle waged by criminal elements In this example of a historical event charged with controversial memories and geopolitical connotations a thorough academic approach is extraordinarily instrumental Responding to the growing need for historical research capable of providing international readers with the latest findings in the thematic field under question six scholars from Vilnius University address the diverse aspects of this phenomenon as well as its role in the culture and politics of memory Toward this end this analysis among the most comprehensive explorations of this history to date is being released in both Lithuanian and English
