Think Jewish:

Thinking Jewish Culture in America Ken Koltun-Fromm, 2013-12-11 *Thinking Jewish Culture in America* argues that Jewish thought extends our awareness and deepens the complexity of American Jewish culture This volume stretches the disciplinary boundaries of Jewish thought so that it can productively engage expanding arenas of culture by drawing Jewish thought into the orbit of cultural studies The eleven contributors to *Thinking Jewish Cultures* together with Chancellor Arnold Eisen's postscript position Jewish thought within the dynamics and possibilities of contemporary Jewish culture These diverse essays in Jewish thought re-imagine cultural space as a public and sometimes contested performance of Jewish identity and they each seek to re-enliven that space with reflective accounts of cultural meaning How do Jews imagine themselves as embodied actors in America Do cultural obligations limit or expand notions of the self How should we imagine Jewish thought as a cultural performance What notions of peoplehood might sustain a vibrant Jewish collectivity in a globalized economy How do programs in Jewish studies work within the academy These and other questions engage both Jewish thought and culture opening space for theoretical works to broaden the range of cultural studies and to deepen our understanding of Jewish cultural dynamics *Thinking Jewish Culture* is a work about Jewish cultural identity reflected through literature visual arts philosophy and theology But it is more than a mere reflection of cultural patterns and choices the argument pursued throughout *Thinking Jewish Culture* is that reflective sources help produce the very cultural meanings and performances they purport to analyze

Negotiating Masculinity and Identity as a Jewish British Male Anthony J. S. Nicholls, 2023-08-26

In this book Dr Anthony Nicholls uses a series of in-depth interviews to investigate how young Jews talk about their Jewishness Britishness and masculinity From his analysis he argues that Jewishness is constructed between adherence to halachic requirement on one hand and Jewishness experienced as cultural affinity to history family and tradition without recourse to halacha on the other hand He further argues that Britishness is experienced between varying degrees of nationalistic localism against cosmopolitan liberalism played out against a backdrop of Britain contrasted with the rest of the world and also London against the rest of Britain Nicholls rejects the view that masculinity is constructed in the inherently unstable terms of physicality against intellectualism Instead he argues that it is better considered as lying in a range between competitive hegemonic masculinity and a cooperative model with which physicality and intellectualism combine to produce a more stable and emotionally satisfying mode of living
