Thinkers and Thinking James Edmund Garretson, 1873 *Medical Thinking* Steven Schwartz, Timothy Griffin, 2012-12-06 Decision making is the physician s major activity Every day in doctors offices throughout the world patients describe their symptoms and complaints while doctors perform examinations order tests and on the basis of these data decide what is wrong and what should be done Although the process may appear routine even to the physicians involved each step in the sequence requires skilled clinical judgment Physicians must decide which symptoms are important whether any laboratory tests should be done how the various items of clinical data should be combined and finally which of several treatments including doing nothing is indicated Although much of the information used in clinical decision making is objective the physician s values a belief that pain relief is more important than potential addiction to pain killing drugs for example and subjectivity are as much a part of the clinical process as the objective findings of laboratory tests In recent years both physicians and psychologists have come to realize that patient management decisions are not only subjective but also probabilistic although this is not always acknowledged overtly When doctors argue that an operation is fairly safe because it has a mortality rate of only 1 % they are at least implicitly admitting that the outcome of their decision is based on probability

The World's Sages, Thinkers & Reformers De Robigne Mortimer Bennett, 1876 *Chess Life*, 2007 **Thinkers' Chess Academy with Grandmaster Thomas Luther - Volume 3 - Test Your Chess Knowledge** Thomas Luther, 2022-12-27 You may think such checkmates are a piece of cake and too easy But you ll see that some are not as simple as you may think And always remember here in the book it s written in big letters Mate in up to two moves In the

game though there s no such writing on the board and you have to see the mate yourself preferably a few moves ahead Therefore it s important that you know as many mate patterns as possible I hope I can show you some that you did not know already or that you would not always recognize in a game Please take this training seriously an important part of the road to playing better chess

Thinkers' Chess Academy with Grandmaster Thomas Luther - Volume 7 by Heinz Brunthaler Heinz Brunthaler,2025-06-17 From the game s Origins and Arabian Chess to the new Rules The age and origin of chess is shrouded in mystery and surrounded by legend It is thought to have originated in India in the 3rd century AD and reached Persia in the 6th century The game then came to Europe in the 9th century At that time the rules of the game were different from those of today with the exception of the rook and knight The queen and bishop which today are long range pieces could only make short moves and were barely stronger than pawns The build up of games developed very slowly Because of this pre prepared positions were used known as tabiyas The turning point came in the 15th century when the rules were changed to their current form making the game faster and more dynamic By today s standards the games of this time were still quite primitive with mostly wild attacks However techniques and methods were developed that are still used today such as combinational motifs The introduction of printing soon made it possible to publish books on chess and thus pass on the knowledge gained to a broader audience Through the whole book we will see examples of composed positions as well as those from games played during all times

Pleasure of Thinking Wang Xiaobo,2023-07-25 A yet untranslated essay collection on the importance of critical thought from one of the foremost Chinese intellectuals of the 1990s Wang Xiaobo s *Pleasure of Thinking* is an essay collection as riotous as it is contemplative Between rollicking anecdotes about living between the East and West and serious musings on the intellectual situations at home and abroad Xiaobo examines modern life with the levity missing from so much of today s politico cultural discourse In *The Maverick Pig* he considers the existential differences between humans and livestock In *Tales From Abroad Food* he recounts the culture shock of discovering American diets while studying at Carnegie Mellon Several pieces focus on literature with notable essays devoted to Italo Calvino Bertrand Russell and Ernest Hemingway whom Xiaobo admired greatly Others are more personal in nature ranging from a meditation on getting mugged to the consideration of the question why do I write Controversial

hilarious and inimitable *Pleasure of Thinking* is a delightful celebration of Wang Xiaobo's unique critical perspective
