Veto Bargaining

Victor M. Corman

Veto Bargaining:

Veto Bargaining Charles M. Cameron, 2000-06-19 Combining game theory with unprecedented data this book analyzes how divided party Presidents use threats and vetoes to wrest policy concessions from a hostile congress Handbook of Parliamentary Studies Cyril Benoît, Olivier Rozenberg, 2020-11-27 This comprehensive Handbook takes a multidisciplinary approach to the study of parliaments offering novel insights into the key aspects of legislatures legislative institutions and legislative politics Connecting rich and diverse fields of inquiry it illuminates how the study of parliaments has shaped a wider understanding surrounding politics and society over the past decades *Presidential Power* Robert Y. Shapiro, Martha Joynt Kumar, Lawrence R. Jacobs, 2000-08-31 Richard Neustadt's seminal work *Presidential Power The Politics of Leadership* has endured for nearly four decades as the core of academic study of the American presidency Now building on and challenging many of the arguments in Neustadt's work *Presidential Power Forging the Presidency for the Twenty first Century* offers reflections and implications from what we have learned about presidential power as the new century dawns These essays including a new contribution by Neustadt himself forge a solid reexamination of Neustadt's *Presidential Power* that address questions raised but not resolved by his work A notable aspect of this volume's analysis is the transformed institution of the presidency in the wake of the impeachment hearings of the country's last twentieth century president Bill Clinton From the portrayal of presidents as persuaders to the politics of presidential transitions each of the constituent essays in this volume provides an engaging look at the state of the American presidency **The Oxford Handbook of the American Presidency** George C. Edwards, William G. Howell, 2011-08-04 With engaging new contributions from major figures in the field *The Oxford Handbook of the American Presidency* provides the key point of reference for anyone working in American politics today **Rivals for Power** James A. Thurber, 2002 The first President Bush faced a long entrenched Democratic majority in both houses of Congress The first term Clinton entered into a unified government for the first time in many years but all that changed in the midterm elections of 1994 The second President Bush faces a closely divided government whose balance could shift at any time Through it all the Presidential Congressional rivalry continues unabated What is it about the institutional relationship between Congress and the Presidency that ensures conflict even in the face of necessary cooperation Here well known scholars and practitioners of Congressional Presidential relations come together to explore both branches of government and what unites as well as divides them Highlights include chapters on budgetary politics in a time of surplus the impacts of campaign message and election mandates and Congressional Presidential relations during transitions Case studies of budget battles health care task forces and armed conflicts in foreign lands lend concrete detail to political theory First hand experience on the Hill and in the Oval Office and everywhere in between is reflected in each chapter Although nothing can rival election 2000 for its challenges to both Congress and the Presidency *Rivals For Power* shows how even an extraordinary electoral result is subject to the rules and rigors of Washington's built in rivalry

New Directions in Congressional Politics Jamie L. Carson, 2012-03-29 As the U S Congress has steadily evolved so too has our understanding of the institution New Directions in Congressional Politics offers an accessible overview of the current developments in our understanding of America s legislative branch Jamie L Carson helps students bridge the gap between roles rules and outcomes by focusing on four themes woven throughout the importance of electoral considerations legislators strategic behavior to accomplish objectives the unique challenges of Congress as a bicameral institution and the often overlooked policy outputs of the institution This book brings together leading scholars of Congress to provide a general overview of the entire field Each chapter covers the cutting edge developments on its respective topic As the political institution responsible for enacting laws the American public regularly looks to the U S Congress to address the important issues of the day The contributors in this volume help explain why staying atop the research trends help us better understand these issues

Essays on Executive Power Tiberiu Dragu, 2009

Leadership at the Crossroads Joanne B. Ciulla, 2008 Contributors from a wide variety of fields including management economics political science philosophy sociology history literature and psychology explore the many facets of leadership Topics include ethics and accountability leadership styles the differences between leadership and management the poison spread by toxic leaders inspirational leadership choosing and monitoring leaders leadership development women and minorities in leadership leadership and diplomacy leadership in literature and the arts military leadership and much more Collectively this set showcases traditional and emerging approaches to leadership in both theory and practice and raises new questions brought on by society s new challenges It also suggests solutions for developing and promoting leadership in the corporate world politics and diplomacy religion education nonprofits and the arts Whether identifying qualities that will serve a U S president well or the characteristics of the essential can do supervisor in today s corporation Leadership at the Crossroads supplies insights and intelligence that will help leaders make the most of the challenges and opportunities before them

Remaking the Presidency Peri E. Arnold, 2009 The first comprehensive study of the three Progressive Era presidents who stretched the limits of the early twentieth century presidency in order to meet the emerging public expectations Explains the leadership differences between the three presidents and looks at the impact the Progressive movement had on the office of the presidency

Annual Review of Political Science, 2008 The mission of Annual review of political science is to provide systematic periodic examinations of the field through critical authoritative reviews The comprehensive critical review not only summarizes a topic but also roots out errors of fact or concept and provokes discussion that will lead to new research activity Each review contains title author s key words abstracts review and bibliography

The Presidencies of George Herbert Walker Bush and George Walker Bush Glenn P. Hastedt, 2008 The Bush Presidencies represent a unique historical challenge for historians and political scientists alike Not since John Adams and his son John Quincy Adams has the nation been led by father and son presidents The Bushes are different from the Adamases John Adams and John Quincy Adams ruled a good

twenty four years apart with John Quincy assuming the presidency in 1824 after a controversial election that was settled by the House of Representatives Although John Quincy did not receive a majority of popular votes or a majority of elector votes he assumed the presidency due to the influence of the House He was soundly defeated by Andrew Jackson four years later In contradistinction to John Quincy Adams George W Bush was declared the electoral vote winner in the 2000 presidential election after a bitter contested election settled in large measure by the Supreme Court decision Bush v Gore Unlike John Quincy George W Bush won a second term albeit by the smallest margin in history 1 George H W Bush was not successful in his re election quest while John Adams was in his Psychological insinuations and theories are more rampant today affecting the analysis of the Bush presidencies unlike the Adams presidencies However the Bush presidencies present opportunities for comparing and contrasting father and son presidencies governing within eight years of each other In addition the son governs as the father watches This new and significant book is dedicated to comparing and contrasting this father and son combination The response to our call has been quite fruitful There seems to be a conventional wisdom developing about this father and son relationship It seems to emphasise differences between the father and son These differences are largely due to the different approaches that father and son took towards Iraq Thus it has been observed that the father is a bit disappointed in the son for the path taken in Iraq George H W Bush is concerned for and worries about his son Our authors find not only differences but great similarities between both presidents This is as one might expect given blood lines environmental upbringing family ties education and other variables affecting these individuals The analysis here both adds to and contradicts the conventional wisdom view of the Bushes Our authors present a first attempt at analysing this unique relationship in various policy areas The authors believe that this relationship will provide future scholars with many research questions concerning the nature of the presidency

Presidential Leadership George C. Edwards, Stephen J. Wayne, 2006 From routine operations to the workings of a White House in crisis PRESIDENTIAL LEADERSHIP POLITICS AND POLICY MAKING examines all facets of the presidency in rich detail with a special emphasis on policy The authors use analytical prose and timely fascinating examples to examine the presidency from two theoretical standpoints the President as facilitator and the President as director of change

The Prospect of Presidential Rhetoric James Arnt Aune, Martin J. Medhurst, 2008 Culminating a decade of conferences that have explored presidential speech The Prospect of Presidential Rhetoric assesses progress and suggests directions for both the practice of presidential speech and its study In Part One following an analytic review of the field by Martin Medhurst contributors address the state of the art in their own areas of expertise Roderick P Hart then summarizes their work in the course of his rebuttal of an argument made by political scientist George Edwards that presidential rhetoric lacks political impact Part Two of the volume consists of the forward looking reports of six task forces comprising more than forty scholars charged with outlining the likely future course of presidential rhetoric as well as the major questions scholars should ask about it and the tools at their disposal The Prospect of Presidential Rhetoric will

serve as a pivotal work for students and scholars of public discourse and the presidency who seek to understand the shifting landscape of American political leadership **Union Labor Report Weekly Newsletter** ,1976 **Bulletin to Management** Bureau of National Affairs (Arlington, Va.),1976 The Journal of Legal Studies ,2002 **Constrained Unilateralism** James Je Heon Kim,2007 The Powers of the Presidency ,2008-03-05 Examines the presidency as a constitutional office covering how it was shaped by its design at the Constitutional Convention in 1787 and by later constitutional amendments Supreme Court decisions and custom and precedent Discusses the various roles of the chief executive including chief of state chief administrator legislative leader chief diplomat commander in chief and chief economist **Inventing the American Presidency** Thomas E. Cronin,1989 In fourteen essays supplemented by relevant sections of and amendments to the Constitution and five Federalist essays by Hamilton provides the reader with the essential historical and political analyses of who and what shaped the presidency Political Science Quarterly ,2007
