The New Awareness:

New Awareness From Seth and Others Sal Risinger Msw,2021-01-25 New Awareness From Seth and Others Individuals and Communities Book 2 in the New Awareness Series continues and deepens the story of Book 1 A prominent theme in Book 2 is the connection between 19 what the consciousnesses call the virus and World Consciousness Change a profound restructuring of our world spurred by the vibrational change of the Earth and our wishes for a more cooperative peaceful and equal world The following message provides a window into the essence of Book 2 The virus is the vehicle used to create the global experience that matches the new way Countries cooperate Communities begin their move to enlightened cooperation and more fair treatment of individuals There will still be individual work to be done to clear the mind of programming that allowed the maltreatment of so many The thinking the structure that allowed and created death and destruction was put in place so long ago on your planet It was not the original way but overwhelmed the original way and became what was viewed as the way greed profit by using others disregard of individual freedom and self determination The New Way the New Day is freedom It is LOVE It is regard for all Your part in this New Way this New Day is to flush out all remnants of the thinking the programming that allowed and created the massive distortions of the original way This will be an individual and collective task It is LOVE Spirit 3 24 20 04 12

Resource Publication (United States. Bureau of Sport Fisheries and Wildlife) , **Consciousness** Neil Rossman,1991-01-21 A central claim of this book is that the emergence of humanity involves a splitting of consciousness the ability of consciousness to become reflectively aware of itself But the splitting of consciousness is simultaneously the development of the possibility of fragmentation incoherence within consciousness and alienation non unity of consciousness with others and the world Thus through the growth of reflective consciousness separation comes to permeate the whole of human experience So understood it creates the need for integration and Rossman s discussion ultimately centers on its attainment Within this perspective various aspects of consciousness including perception organic sensation desire and belief are explored There is also extensive discussion of personal identity or the experience of being a self Finally the above analyses provide the ground for discussions of freedom morality and being religious

Does God Exist Hans Kung,2013-01-02 Does God exist The question implies another Who is God This book is meant to give an answer to both questions and to give reasons for this answer Does God exist Yes or no Many are at a loss between belief and unbelief they are undecided skeptical They are doubtful about their belief but they are also doubtful about their doubting There are still others who are proud of their doubting Yet there remains a longing for certainty Certainty Whether Christians or Jews believers in God or atheists the discussion today runs right across old denominations and new ideologies but the longing for certainty is unquenched Does God exist We are putting all our cards on the table here The answer will be Yes God exists As human beings in the twentieth century we certainly can reasonably believe in God even more so in the Christian God and perhaps even more easily today than a few decades or centuries ago For after so many crises it is surprising how much has been clarified and how many difficulties in regard to belief in God have melted into the Light that no darkness has overcome
