The New Inquisition Robert Anton Wilson,1987      **A Compendium of Ecclesiastical History, Volume 5** John C. L. Gieseler,2021-11-25      **A Compendium of Ecclesiastical History** Johann Karl Ludwig Gieseler (German Theologian.),1855      **A Compendium of Ecclesiastical History** Johann Carl Ludwig Gieseler,Johann Karl Ludwig Gieseler,1855      **A Jewish Renaissance in Fifteenth-Century Spain** Mark D. Meyerson,2021-02-09 This book significantly revises the conventional view that the Jewish experience in medieval Spain over the century before the expulsion of 1492 was one of despair persecution and decline Focusing on the town of Morvedre in the kingdom of Valencia Mark Meyerson shows how and why Morvedre s Jewish community revived and flourished in the wake of the horrible violence of 1391 Drawing on a wide array of archival documentation including Spanish Inquisition records he argues that Morvedre saw a Jewish renaissance Meyerson shows how the favorable policies of kings and of town government yielded the Jewish community s demographic expansion and prosperity Of crucial importance were new measures that ceased the oppressive taxation of the Jews and minimized their role as moneylenders The results included a reversal of the credit relationship between Jews and Christians a marked amelioration of Christian attitudes toward Jews and greater economic diversification on the part of Jews Representing a major contribution to debates over the Inquisition s origins and the expulsion of the Jews the book also offers the first extended analysis of Jewish converso relations at the local level showing that Morvedre s Jews expressed their piety by assisting Valencia s conversos Comparing Valencia with other regions of Spain and with the city states of Renaissance Italy it makes clear why this kingdom and the town of Morvedre were so ripe for a Jewish revival in the fifteenth century      **Israel and the Gentiles** Isaïc da Costa,1850      **Riots and Pogroms** Paul R. Brass,2016-07-27 Riots and Pogroms presents comparative studies of riots and pogroms in the twentieth century in Russia Germany Israel India and the United States with a comparative historical and analytical introduction by the editor The focus of the book is on the interpretive process which follows after the occurrence of riots and pogroms rather than on the search for their causes The concern of the editor and contributors is with the struggle for control over the meaning of riotous events for the right to represent them properly      **Morning Knowledge** Shannon Alastair,1901      The New Inquisition Konrad Heiden,1939 Based on testimonies and reports which he himself gathered Heiden describes the events of the Kristallnacht pogrom and the arrests of the Jewish men and their internment in concentration camps under appalling conditions Warns that the Nazi racial and antisemitic ideology and policies are aimed at world domination and the destruction of the Jews      **The Death Penalty in Late-Medieval Catalonia** Flocel Sabaté,2019-09-03 The death penalty was unusual in medieval Europe until the twelfth century From that moment on it became a key instrument of rule in European society and we can study it in the case of Catalonia through its rich and varied unpublished documentation The death penalty was justified by Roman Law accepted by Theology and Philosophy for the Common Good and used by rulers as an instrument for social intimidation The application of

the death penalty followed a regular trial and the status of the individual dictated the method of execution reserving the fire for the worst crimes as the Inquisition applied against the so called heretics The executions were public and the authorities and the people shared the common goal of restoring the will of God which had been broken by the executed person The death penalty took an important place in the core of the medieval mind people included executions in the jokes and popular narratives while the gallows filled the landscape fitting the jurisdictional limits and also showing rotten corpses to assert that the best way to rule and order the society is by terror This book utilises previously unpublished archival sources to present a unique study on the death penalty in late Medieval Europe
