This treatise on the Constitutional Laws Usages and Landmarks of Freemasonry is doubtless one of the most important and invaluable works in a Freemasonic library This book was carefully put together and is not a scan of the original In presenting to the fraternity a work on the Principles of Masonic Law it is due to those for whom it is intended that something should be said of the design with which it has been written and of the plan on which it has been composed It is not pretended to present to the craft an encyclopedia of jurisprudence in which every question that can possibly arise in the transactions of a Lodge is decided with an especial reference to its particular circumstances Were the accomplishment of such an herculean task possible except after years of intense and unremitting labor the unwieldy size of the book produced and the heterogeneous nature of its contents so far from inviting would rather tend to distract attention and the object of communicating a knowledge of the Principles of Masonic Law would be lost in the tedious collation of precedents arranged without scientific system and enunciated without explanation When I first contemplated the composition of a work on this subject a distinguished friend and Brother whose opinion I much respect and with whose advice I am always anxious to comply unless for the most satisfactory reasons suggested the expediency of collecting the decisions of all Grand Masters Grand Lodges and other masonic authorities upon every subject of Masonic Law and of presenting them without commentary to the fraternity
