Usfk Strategy To Tasks Resource Management:

USFK Strategy-to-task Resource Management John Y. Schrader,1996 This report documents Phase 1 of a RAND project to provide an analytic capability to assist USFK United States Forces Korea in its Planning Programming and Budgeting System deliberations and decisions *A Framework for Enhancing Airlift Planning and Execution Capabilities Within the Joint Expeditionary Movement System* Robert S. Tripp,2006 Recent operations have shed light on shortfalls in Air Force intratheater airlift Using an expanded strategies to tasks framework the authors assess current intratheater airlift processes organizations doctrine training and systems This report catalogues identified shortfalls and recommends options for improving the Theater Distribution System The authors recommend separation of supply demand and integrator roles and adoption of a closed loop planning and execution process Space Command Sustainment Review Robert S. Tripp,2007 Space assets are vital to the economic social and military interests of the United States but these interests can conflict with one another especially when it comes to space system sustainment The authors worked with Air Force Space Command to develop a sustainment philosophy based on separation of demand supply and integrator processes and clear definition of responsibilities using specific systems and units for illustration Maxwell's Handbook for AACR2R Robert L. Maxwell,Margaret F. Maxwell,1997 In Maxwell s Handbook for AACR2R the authors have included the 1993 Amendments of the Joint Steering Committee for Revision of Anglo American Cataloguing Rules provided all examples in the widely used MARC format considered rule interpretations of the major Anglo American national libraries updated all of the chapters and added a completely new chapter on manuscripts to correspond with AACR2R This revision of the cataloging classic follows the easy to use format of the previous edition and is packed with hundreds of examples that fully explain the cataloging rules to veteran and student catalogers alike **Improving Support to CINC Theater Engagement Plans** Roger Allen Brown,Leslie Lewis,John Y. Schrader,2001 This documented briefing contains initial findings resulting from the Phase I study on improving support to the Commander in chief CINC Theater Engagement Plans TEPs The purpose of the study is twofold 1 help the Director for Strategic Plans and Policy J 5 and the Directo for Force Structure Resources and Assesment J 8 develop a framework for assessing global engagement and its associated resource demands which would raise awareness of engagement resource support to the CINCs The briefing concludes that although the TEP provides a useful planning mechanism for the complex activities associated with the engagement mission it must be more closely linked to Department of Defense formal decisionmaking processes **Managing Quadrennial Defense Review Integration** John Y. Schrader,Roger Allen Brown,Leslie Lewis,2001 The problems and issues that the research team tracked during QDR 1997 are far from being resolved and there is no clear guidance on what will be demanded in QDR 2001 The services remain skeptical of the Joint Staff dealing with tough issues that could redirect their own programmatic decisions Although there is promise of improvement in organization and process the most glaring problems are the lack of a comprehensive approach to

treating resources and understanding the effects of resources on strategy and transformation alternatives It is essential that good working relationships be established now with a clear understanding of the different responsibilities and capabilities of the Joint Staff and the Office of the Secretary of Defense OSD It will be important to identify an appropriate set of mega issues with an appropriate set of supporting specific issues and initiate studies and analysis on the most important ones

RAOP ,1993 *Analytic Architecture for Joint Staff Decision Support Activities* William Schwabe,Leslie Lewis,John Y. Schrader,1996 The second of two reports on a RAND study Analytic Architecture for Joint Staff Decision Support Activities The earlier report MR 511 JS sought to identify architectures including the strategy to tasks STT framework that could provide an efficient structure and a common tableau This report develops the STT framework further as part of a more general ideal analytic support architecture that might be adopted by the Joint Staff It also considers methods for incorporating the ideal framework into existing processes The recommended ideal architecture is an expanded STT framework for representing the defense posture analytically relating means to ends at four levels policy operations assignment and programming The STT framework aids in understanding distinct processes and relationships as well as identifying issues and requirements and improving organizational efficiency and effectiveness *National Security Challenges for the 21st Century* Williamson Murray,2003 Officers who participated in the Advanced Strategic Art Program ASAP during their year at the U S Army War College wrote these chapters The ASAP is a unique program that offers selected students a rigorous course of instruction in theater strategy Solidly based in theory doctrine and history the program provides these students a rich professional experience that includes staff rides exercises and the best instructional expertise available The program is designed to provide the joint community with the military's best theater strategists The challenges facing the defense establishment in the United States at the beginning of the 21st century are daunting indeed however the thoughtful essays included in this volume including two award winners representing some of the thinking by students at the U S Army War College provide insights into these trials that will prove useful to policymakers both in and out of uniform International Security Environment (strategy) United States.
