**The Routledge Handbook of Language Program Development and Administration** Alan V. Brown,Cori Crane,Beatrice C. Dupuy,Estela Ene,2025-06-30 Second language program development and administration is a long standing area within the larger field of applied linguistics In many ways it is the quintessential applied linguistics field as it crosses disciplinary boundaries while balancing the rigors of scholarly inquiry with the demands of practical application without losing sight of concrete learner outcomes The Routledge Handbook of Language Program Development and Administration provides a scholarly rigorous yet practically relevant treatment of issues implicated in program development and administration with 52 chapters written by leading scholars in the field Authors not only address the theoretical underpinnings of their respective topics but also provide actionable evidence based recommendations concerning eminently practical matters In this way the volume provides both novice and experienced language program administrators with important guidance on how to think about the work that they do and how best to go about it while also validating language program administration as a scholarly area of inquiry The Routledge Handbook of Language Program Development and Administration is essential reading for practicing second language program administrators at the post secondary level in service and pre service second language instructors graduate students in applied linguistics and even upper level undergraduate education students considering second language teaching as a future career Chapters 9 and 11 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

of language assessment      **The Cambridge Guide to Second Language Assessment** Christine Coombe,2012-01-30 The Cambridge Guide to Second Language Assessment aims to present in one volume an up to date guide to the central areas of assessing the second language performance of English by speakers of other languages This volume provides snapshots of significant issues and trends that have shaped language assessment in the past and highlights the current state of our understanding of these issues      **Normal Instructor and Teachers World** ,1924      Language Testing and Assessment ,19??      **The Classical World** ,1921      Sharing Less Commonly Taught Languages in Higher Education Emily Heidrich Uebel,Angelika Kraemer,Luca Giupponi,2023-12-22 This edited volume highlights how institutions programs and less commonly taught language LCTL instructors can collaborate and think across institutional boundaries bringing together voices representing different approaches to LCTL sharing to highlight affordances and challenges across institutions in this collection of essays Sharing Less Commonly Taught Languages in Higher Education showcases how innovation and reform can make LCTL programs and courses more attractive to students whose interests and needs might be overlooked in traditional language programs The volume focuses on how institutions programs and LCTL instructors can work together collaborating and thinking across institutional boundaries to explore innovative solutions for offering a wider range of languages and levels With challenges including instructor isolation difficulty in offering advanced courses or sustaining course sequences and minimal availability of pedagogical materials compared to commonly taught languages to overcome this collection is a vital resource for language educators and language program administrators The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivative Licence CC BY NC ND 4 0 license      **Designing Second Language Performance Assessments** John M. Norris,1998 This volume focuses on the decision making potential provided by second language performance assessments The authors first situate performance assessment within a broader discussion of alternatives in language assessment and in educational assessment in general They then discuss issues in performance assessment design implementation reliability and validity Finally they present a prototype framework for second language performance assessment based on the integration of theoretical underpinnings and research findings from the task based language teaching literature the language testing literature and the educational measurement literature The authors outline test and item specifications and they present numerous examples of prototypical language tasks They also propose a research agenda focusing on the operationalization of second language performance assessments      **Meeting the Challenges to Measurement in an Era of Accountability** Henry Braun,2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4 8 Teachers in these subject areas

however constitute less than thirty percent of the teacher workforce in a district. Comparatively little has been written about the measurement of achievement in the other grades and subjects. This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all. It addresses traditional end of course tests as well as alternative measures such as portfolios, exhibitions, and student learning objectives. In each case, issues related to design and development, psychometric considerations, and validity challenges are covered from both a generic and a content-specific perspective. The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research-based applications of educational measurement and assessment. Edited by leading experts, these books are comprehensive and practical resources on the latest developments in the field. Derivatives 4.0 license. [The Changing Landscape of Spanish Language Curricula](#) Alan V. Brown, Gregory L. Thompson, 2018-07-01. Spanish remains a large and constant fixture in the foreign language learning landscape in the United States. As Spanish language study has grown, so too has the diversity of students and contexts of use, placing the field in the midst of a curricular identity crisis. Spanish has become a second rather than a foreign language in the US, which leads to unique opportunities and challenges for curriculum and syllabus design, materials development, individual and program assessment, and classroom pedagogy. In their book, Brown and Thompson address these challenges and provide a vision of Spanish language education for the twenty-first century. Using data from the College Board, ETS, and the authors' own institutions, as well as responses to their national survey of almost seven hundred Spanish language educators, the authors argue that the field needs to evolve to reflect changes in the sociocultural, socioeducational, and sociopolitical landscape of the US. The authors provide a coherent and compelling discussion of the most pressing issues facing Spanish post-secondary education and strategies for converting these challenges into opportunities. Topics addressed in the book include: Heritage learners, service learning in Spanish-speaking communities, Spanish for specific purposes, assessment, unique needs for Spanish teacher training, online and hybrid teaching, and the relevance of ACTFL's national standards for Spanish post-secondary education. An essential read for Spanish language scholars, especially those interested in curriculum design and pedagogy that includes supporting reflection questions and pedagogical activities for use in upper-level undergraduate and graduate-level courses. **Guiding Rural Boys and Girls** Orie Latham Hatcher, 1930. **The Educator-journal**, 1922. **The Ohio Teacher**, 1921.
