*The Lost World of Genesis One* John H. Walton, 2010-07-21 In this astute mix of cultural critique and biblical studies John H Walton presents and defends twenty propositions supporting a literary and theological understanding of Genesis 1 within the context of the ancient Near Eastern world and unpacks its implications for our modern scientific understanding of origins

*Encyclopaedia of Religion and Ethics* James Hastings, John Alexander Selbie, Louis Herbert Gray, 1917      **Ecophilosophy in a World of Crisis** Roy Bhaskar, Petter Naess, Karl Høyer, 2011-10-04 Building on its origins at a seminar in Oslo organized by two of the editors this book combines classic texts of Nordic ecophilosophy and the original contributions of those influenced by this tradition to present the view that critical realism is indeed a worthy intellectual tradition to carry forward and further develop the work of the founders of Nordic ecophilosophy It was clear at the seminar that there was a promising convergence of interests and themes in the two approaches while at the same time within the Nordic ecophilosophical tradition there was appreciation of the capacity of critical realism with its provision of a robust philosophical ontology and generation of totalizing immanent critiques of Western philosophy to provide an expansive and secure home for the development of ecophilosophical work generally If there is a single overarching theme of critical realist philosophy it surely must be that of the unity of theory and practice which Bhaskar following Hegel has also called seriousness This makes the applicability relevance and actionability of critical realism key considerations for critical realists There can be no doubt that this concern was shared fully by the Nordic ecophilosophers and this quality of seriousness is a striking feature of the Nordic contributions presented in this book      *The World of Man* Francis Borgia, 2020-05-15 Book Delisted      *The Divine Gift of Mediumship* Richmond Leander Bishop, 1915      **The Changing World of Atheism** Paul Chamberlain, 2026-02-13 The case

for atheism is being vigorously advanced today throughout the world of social media and in a flurry of recent books But this case is being made differently in ways that are often confusing for Christians who attempt to engage their atheist friends It begins with a shift in the definition of atheism This shift in wording is often unnoticeable in conversation but can be profound in its impact The modified interpretation of atheism is more ambiguous than the traditional clear definition and eliminates the clear dividing line between atheism and agnosticism While this may seem purely theoretical it sets up a different and confusing strategy used by atheists to promote their view one that puts Christians on the defensive by shifting the burden of proof entirely onto them This is the new enviable position that many atheists are carving out for themselves in twenty first century discussions This book is intended to be a map for readers who wish to track with these changes and develop thoughtful responses to them so they can talk with their atheist friends and neighbors more constructively
