**Saving the World's Deciduous Forests** Robert A. Askins,2014-03-25 Deciduous forests have been remarkably resilient throughout their history recovering from major shifts in climate and surviving periods of massive deforestation But today the world s great forests confront more ominous threats than ever before This visionary book is the first to examine forests consisting of oaks maples hickories beeches chestnuts birches and ecologically similar animals and plants on three continents East Asia Europe and North America to reveal their common origin back in time the ecological patterns they share and the approaches to conservation that have been attempted on their behalf Although these forests face common problems threats due to human activities vary Different land use and agricultural practices on the three continents as well as different attitudes about what is worth preserving have led to strikingly different approaches to forest conservation Robert Askins explores the strengths and weaknesses of conservation efforts across the continents and concludes that the ideal strategy for the future will blend the best ideas from each

The Book of my Lessons Marc Mazis,2011-09-25 The Book of Lessons attempts to describe a series of lessons which were born from some encounters signs experiences and messages that I received from God It is filled with the spiritual tools that were lovingly given to me to help me avoid the crash and burn of a life lived selfishly and without regard to the well being of myself and others The messages and lessons include sacred sources of untold wisdom and intertwine all religions and spiritual paths They have taken me on a journey of tremendous personal transformation occurring by tuning into the Living Universe and by practice It is my hope that you too will see synchronicity in the signs and messages that you experience everyday in your great Dance with God in a loving relationship And that your connection with that love and power will light your path as you proceed and the transformation will bring you unspeakable joy Marc Steven Mazis
