the Mayan Calendar s Great Cycle will come to an end Opinion remains divided as to whether apocalyptic scenarios of
worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed What is
certain however is that a rare galactic alignment will occur one so unique that it is found at the core of many wisdom
traditions from around the globe Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena
since 1982 Far from confining his research to the Maya who provide the most prominent predictions indicating this date will
herald significant changes for humanity he has studied the prophetic traditions of other cultures including the Tibetan
Chinese Jewish Ethiopian and tribal cultures from around the globe to show the kind of convergence of cosmic purposes
happening along a number of parallel tracks This book offers an extensive study of many modern theories including Terence
McKenna s timewave zero and Maurice Cotterell s sunspot research as well as anomalous phenomena such as near death
experiences and crop circles Sifting through all the scientific research and speculation that the year 2012 has inspired Geoff
