The Heroic Life:

The Hero's Life Choice. Studies on Heracles at the Crossroads, the Judgement of Paris, and Their Reception

Malcolm Davies, 2023-09-04 Two allegorical ancient Greek stories about a young hero's career defining choice are shown in this book to have later been appropriated to radically differing effects. E.g. a male's choice between female personifications can morph into a female's choice between the same or between various male personifications. Never before have so many instances of this process from art literature music even landscape gardening been culled. Illustrations mainly colour many brought into this context for the first time are conveniently incorporated into the text thus mimetically mirroring a central theme of the book the process of visualising the verbal verbalising the visual. **Hercules** Alastair Blanshard, 2006 A biography of the mythological hero Hercules. **Ultimate Fighting and Embodiment** Dale C. Spencer, 2013-06-19 Mixed martial arts MMA is an emergent sport where competitors in a ring or cage utilize strikes punches kicks elbows and knees as well as submission techniques to defeat opponents. This book explores the carnal experience of fighting through a sensory ethnography of MMA and how it transgresses the cultural scripts of masculinity in popular culture. Based on four years of participant observation in a local MMA club and in depth interviews with amateur and professional MMA fighters Spencer documents fighters training regimes and the meanings they attach to participation in the sport. Drawing from the philosophical phenomenology of Martin Heidegger Maurice Merleau Ponty and Jean Luc Nancy this book develops bodies centered ontological and epistemological grounding for this study. Guided by such a position it places bodies at the center of analysis of MMA and elucidates the embodied experience of pain and injury and the sense and rhythms of fighting.
