Countries provide articles for free movement of third country workers in the European Union and vice versa For a long time the Association Agreements are the basic law regulating the freedom of movement of third country workers The European Court of Justice played important role in interpreting the articles for freedom of movement of workers and giving direct effect in the national laws of the Member States In the last two years European Union has adopted secondary law for improving the status of third country workers especially for highly qualified workers The entrance of highly qualified workers in the Member States is important for realization of the economic growth and development such as decreasing the unemployment rate
