fight against hangovers to settle once and for all the best way to get rid of the aftereffects of a night of indulgence short of not drinking in the first place Hangovers have plagued human beings for about as long as civilization has existed and arguably longer so there has been plenty of time for cures to be concocted But even in 2018 little is actually known about hangovers and less still about how to cure them Cutting through the rumor and the myth Hangover explores everything from polar bear swims to saline IV drips to the age old hair of the dog to let us all know which ones actually work And along the way Bishop Stall regales readers with stories from humanity's long and fraught relationship with booze and shares the advice of everyone from Kingsley Amis to a man in a pub The Hangover Companion Michael O'Mara Books,2006 We've been suffering hangovers for as long as anyone can remember anyone who was sober last night that is not anyone who's currently sipping Lucozade in a darkened room with a basin by their side They can't even remember how they got home So if we've known about hangovers for so long how come we've never figured out how to put a stop to them Well you might be surprised to hear that we have A great deal of research has gone into the mystery of the hangover People are out there every night researching themselves legless in bars pubs and clubs all over the country They try different combinations of drinks wine before beer then whisky beer before wine then whisky vodka before beer and then wine before whisky drinking standing up drinking sitting down eating before the drinking eating during the drinking eating after the drinking wine before sitting down vodka during the whisky and standing up eating in the beer the researcher's notes get a bit confused here The point is we know what causes hangovers the Devil He's trying to suck out your soul through your toilet and starts with everything you've had to eat in the last three days pituitary gland causing vasopressin inhibition dehydration and a toxic accumulation of acetaldehyde when the liver's production of glutathione is exhausted The scientists have all the answers and their ultimate solution to the hangover problem is don't drink But that's just crazy talk so maybe they're not so clever after all There are plenty of hangover cures from Prairie Oysters and Bloody Marys to burnt toast fried breakfasts and bananas but only a few of them do any good at all and some of them can actually do more harm than good banging yourself on the head with a dustbin lid for example or turning up for work Different things obviously will work better or worse for different people the trick is knowing what works best for you and Rough As A Badger's Arse gives a fair and unbiased assessment of all of the best hangover cures to guide you through the tough choices the world about the perils of the demon drink the odd drinking quote or ditty lots of hard facts to help you think your head straight and plenty of soft paper if your problem is mainly at the other end As good a pick me up as a JCB or a bucketful of Red Bull Rough As A Badger's Arse will have you ready to face your next session before you can say Mine's a Perrier So if that randy wild gorilla broke into your room last night while you were unconscious you know the one that scattered your clothes around wrecked your CD player stole all your money messed up your bed planted a traffic cone on your head left your front door open and emptied an ash tray into your mouth you really need this book Hangover Handbook-10 Copy Ppk Oudtshoorn,1993-12-09
