Koala Ann Moyal, 2008-07-25 The koala is both an Australian icon and an animal that has attained flagship status around the world Yet its history tells a different story While the koala figured prominently in Aboriginal Dreaming and Creation stories its presence was not recorded in Australia until 15 years after white settlement Then it would figure as a scientific oddity despatched to museums in Britain and Europe a native animal driven increasingly from its habitat by tree felling and human settlement and a subject of relentless hunting by trappers for its valuable fur It was not until the late 1920s that slowly emerging protective legislation and the enterprise of private protectors came to its aid This book surveys the koala's fascinating history its evolutionary survival in Australia for over 30 million years its strikingly adaptive physiognomy its private life and the strong cultural impact it has had through its rich fertilisation of Australian literature The work also focuses on the complex problems of Australia's national wildlife and conservation policies and the challenges surrounding the environmental economic and social questions concerning koala management Koala embraces the story of this famous marsupial in an engaging historical narrative extensively illustrated from widely sourced pictorial material **Andypedia** Terry Denton, Andy Griffiths, 2012-02-15 It's an encyclopedia all about Andy The Andypedia is a complete guide to every book every story and every character in the world of Andy Griffiths books It's also a complete guide to everything you ever wanted to know about Andy himself including the answers to questions people are always asking him like How old were you when you started writing and How many books have you actually written and Where do you get your ideas from and Did all that stuff really happen to you and Was Danny Pickett really your best friend and Were you really in love with Lisa Mackney and Did your bum really grow arms and legs and run away *Beyond Words* Jacqueline Kent, 2019-02-04 In 1985 Jacqueline Kent was content with her life She had a satisfying career as a freelance book editor and was emerging as a writer Living and working alone she relished her independence But then she met Kenneth Cook author of the Australian classic *Wake in Fright* and they fell in love With bewildering speed Jacqueline found herself in alien territory with a man almost twenty years older whose life experience could not have been more different from her own She had to come to terms with complicated finances

and expectations and to negotiate relationships with Ken's children four people almost her own age But with this man of contradictions funny and sad headstrong and tender she found real and sustaining companionship Their life together was often joyful sometimes enraging always exciting until one devastating evening But as Jacqueline discovered even when a story is over that doesn't mean it has come to an end
