Berghuis, 2004-05-21 The Child Psychotherapy Progress Notes Planner Second Edition contains complete prewritten session and patient presentation descriptions for each behavioral problem in The Child Psychotherapy Treatment Planner Third Edition. The prewritten progress notes can be easily and quickly adapted to fit a particular client need or treatment situation. Saves you hours of time consuming paperwork yet offers the freedom to develop customized progress notes. Organized around 33 main presenting problems that range from blended family problems and children of divorce to ADHD attachment disorder, academic problems and speech and language disorders. Features over 1,000 prewritten progress notes summarizing patient presentation themes of session and treatment delivered. Provides an array of treatment approaches that correspond with the behavioral problems and DSM IV TR TM diagnostic categories in The Child Psychotherapy Treatment Planner Third Edition. Offers sample progress notes that conform to the requirements of most third party payors and accrediting agencies including the JCAHO and the NCQA.

The Financial Planning Competency Handbook CFP Board, 2013-04-03 Whether you are studying to become a financial planner or a practitioner looking for a comprehensive reference to help serve your clients' needs, this is the ultimate guide. Developed by the Certified Financial Planner Board of Standards Inc. CFP Board, the Financial Planning Competency Handbook gives you everything you need to meet the daily challenges of your current or future profession. This all-inclusive handbook covers the entire list of nearly 90 vital topics on integrated financial planning, including such major components as General Principles of Finance and Financial Planning, Insurance Planning, Employee Benefits Planning, Investment and Securities Planning, State and Federal Income Tax Planning, Estate Tax, Gift Tax, and Transfer Tax Planning, Retirement Planning, Estate Planning, Principles of Communication and Counseling, and more.

The Addiction Treatment Planner Robert R. Perkinson, Arthur E. Jongsma, Jr., 2006 The Addiction Treatment Planner Third Edition provides all the elements necessary to quickly and easily develop formal treatment plans that satisfy the demands of HMOs, managed care companies, third party payors, and state and federal review agencies. This Third Edition includes new language for evidence-based care that fits mandates set forth by the American Society of Addiction Medicine (ASAM), which are being adopted by most state accrediting bodies. New chapters cover chronic pain, dangerousness, lethality, opioid dependence, and self-care. Saves you hours of time consuming paperwork yet offers the freedom to develop customized treatment plans. Organized around 42 main presenting problems, including chemical and nonchemical addictions such as substance abuse, eating disorders, schizoid traits, and others. Over 1,000 well-crafted, clear statements describe the behavioral manifestations of each relational problem, long-term goals, short-term objectives, and clinically tested treatment options. Easy-to-use reference format helps locate treatment plan components by behavioral problem or DSM IV TR diagnosis. Includes a sample treatment plan that conforms to the requirements of most third party payors and accrediting agencies, including HCFA, JCAHO, and

NCQA *Play Therapy Treatment Planning and Interventions* Kevin John O'Connor, Sue Ammen, 2012-10-31 *Play Therapy Treatment Planning and Interventions The Ecosystemic Model and Workbook 2e* provides key information on one of the most rapidly developing and growing areas of therapy. Ecosystemic play therapy is a dynamic integrated therapeutic model for addressing the mental health needs of children and their families. The book is designed to help play therapists develop specific treatment goals and focused treatment plans as now required by many regulating agencies and third party payers. Treatment planning is based on a comprehensive case conceptualization that is developmentally organized, strength based and grounded in an ecosystemic context of multiple interacting systems. The text presents guidelines for interviewing clients and families as well as pretreatment assessments and data gathering for ecosystemic case conceptualization. The therapist's theoretical model, expertise and context are considered. The book includes descriptions of actual play therapy activities organized by social emotional developmental levels of the children. Any preparation the therapist may need to complete before the session is identified as is the outcome the therapist may expect. Each activity description ends with a suggestion about how the therapist might follow up on the content and experience in future sessions. The activity descriptions are practical and geared to the child. Case examples and completed sections of the workbook are provided. It provides the therapist with an easy to use format for recording critical case information, specific treatment goals and the overall treatment plan. Workbook templates can be downloaded and adapted for the therapist's professional practice. Presents a comprehensive theory of play therapy. Clearly relates the theoretical model to interventions. Provides examples of the application of both the theory and the intervention model to specific cases. Describes actual play therapy activities. Workbook format provides a means of obtaining comprehensive intake and assessment data. Case examples provided throughout.
