## **Twelve Types:**

*Twelve Types* G K Chesterton, 2021-04-11 It may therefore I think be legitimately said that the externals of the Brontë's life though singularly picturesque in themselves matter less than the externals of almost any other writers It is interesting to know whether Jane Austen had any knowledge of the lives of the officers and women of fashion whom she introduced into her masterpieces It is interesting to know whether Dickens had ever seen a shipwreck or been inside a workhouse For in these authors much of the conviction is conveyed not always by adherence to facts but always by grasp of them But the whole aim and purport and meaning of the work of the Brontë's is that the most futile thing in the whole universe is fact Such a story as *Jane Eyre* is in itself so monstrous a fable that it ought to be excluded from a book of fairy tales The characters do not do what they ought to do nor what they would do nor it might be said such is the insanity of the atmosphere not even what they intend to do The conduct of Rochester is so primevally and superhumanly caddish that Bret Harte in his admirable travesty scarcely exaggerated it Then resuming his usual manner he threw his boots at my head and withdrew does perhaps reach to something resembling caricature The scene in which Rochester dresses up as an old gipsy has something in it which is really not to be found in any other branch of art except in the end of the pantomime where the Emperor turns into a pantaloon Yet despite this vast nightmare of illusion and morbidity and ignorance of the world *Jane Eyre* is perhaps the truest book that was ever written Its essential truth to life sometimes makes one catch one's breath For it is not true to manners which are constantly false or to facts which are almost always false it is true to the only existing thing which is true emotion the irreducible minimum the indestructible germ It would not matter a single straw if a Brontë story were a hundred times more moonstruck and improbable than *Jane Eyre* or a hundred times more moonstruck and improbable than *Wuthering Heights* It would not matter if George Read stood on his head and Mrs Read rode on a dragon if Fairfax Rochester had four eyes and St John Rivers three legs the story would still remain the truest story in the world The typical Brontë character is indeed a kind of monster Everything in him except the essential is dislocated His hands are on his legs and his feet on his arms his nose is above his eyes but his heart is in the right place

*Twelve Types* G. K. Chesterton, Aeterna Press, 2015-07-31 It is proper enough that the unveiling of the bust of William Morris should approximate to a public festival for while there have been many men of genius in the Victorian era more despotic than he there have been none so representative He represents not only that rapacious hunger for beauty which has now for the first time become a serious problem in the healthy life of humanity but he represents also that honourable instinct for finding beauty in common necessities of workmanship which gives it a stronger and more bony structure The time has passed when William Morris was conceived to be irrelevant to be described as a designer of wall papers
