Divining Rod - a history of water witching Arthur Jackson Ellis, 1938 **The Elusive Quarry** Ray Hyman, 1989-04 Ever since the Society for Psychical Research was founded over a hundred years ago parapsychologists have been attempting to prove the existence of paranormal phenomena things like clairvoyance telepathy precognition and remote viewing This research into what is now often called psi has become increasingly technical Controlled laboratory experiments have replaced systematic surveys of spontaneous occurrences complicated statistical analyses have replaced anecdotal data In short psychical research has aspired to the standards of hard science With what results Ray Hyman is supremely qualified to say A research psychologist held in the highest esteem by both parapsychologists and skeptics Ray Hyman here reviews the history and methods of psychical research *The Elusive Quarry* is Hyman s fascinating fair minded critique of the field a book designed not to debunk but to discern In Part 1 Parapsychology Hyman gives us a historical overview Over the past hundred years what have been the strongest claims made for the paranormal Hyman gives close scrutiny to what have been called ganzfeld experiments a

body of research considered by parapsychologists to be especially compelling Part 2 Scientists and the Paranormal focuses on the scientists themselves from Michael Faraday and Sir William Crookes in the last century to Helmut Schmidt and his recent work with random event generators Scientists have been interacting with an admittedly unique group of people psychics Are their methods of testing and reporting appropriate for the phenomena under examination Hyman steps outside of the laboratory for his book s third part Psychic Phenomena and evaluates the claims of water witching occult healing and remote viewing In doing so he demonstrates that one s interpretation of scientific data is strongly affected by one s underlying belief or lack of belief in paranormal phenomena In Part 4 The Psychology of Belief Hyman vividly explains cold reading that ability psychics have to convince strangers that they know all about them It s an ability anybody can develop Hyman says The psychology is common not psychic **New Outlook** ,1953 **Earth Science Digest** ,1948 Mining American ,1917 Geology and Ground Waters of the Western Part of San Diego County, California Arthur Jackson Ellis,1919 *The Johnson National Drillers Journal* ,1929 The Greater America Ralph Delahaye Paine,1907 *The Agricultural Epitomist* ,1899 *The Potable Waters of Eastern United States* W J McGee,1895 Introduction to Hydrogeology David Deming,2002 Provides an introduction to hydrogeology This work is applicable for hydrogeology geohydrology groundwater and geologic fluids courses taken by juniors and seniors Its primary goal is to emphasize the geologic aspects of hydrogeology **Mining and Industrial Reporter** ,1917
