Beacham's Guide to International Endangered Species: Non-mammals listed prior to 2000 Walton Beacham,Kirk H. Beetz,1998 This new set is another entry in the growing collection of Beacham's guides to endangered threatened and extinct species Previous volumes include the one volume World Wildlife Fund Guide to Extinct Species of Modern Times RBB S 1 97 and the four volume Official World Wildlife Fund Guide to Endangered Species of North America 1994 The current set treats 351 species mammals only and appears to be derived from the same database of information presented in Beacham's International Threatened Endangered and Extinct Species on CD ROM RBB My 15 97 which covers 1 400 species Data are provided on mammalian species listed as threatened or endangered by the USFWS U S Fish and Wildlife Service A third volume will cover all other foreign species listed by this agency A master list of protected species is available at FWS Web site at risk by the IUCN The World Conservation Union or by CITES Convention on International Trade in Endangered Species of Wild Fauna and Flora There is an entry for the previously endangered eastern gray kangaroo to show the process by which one species has been successfully recovered The authors use the above mentioned organizations as the authorities for their work For example in the introductory section on Gorillas and Orangutans they have chosen to follow the USFWS designation for endangered species and the IUCN's placement of apes in the Pongidae family rather than Hominidae Each set of species accounts includes a general introductory section giving the popular name the family and subfamily scientific names and a general description of the characteristics of the species These sections often include information on threats and are especially revealing telling us for example that mountain gorillas are killed occasionally by carnivores but their main predator is man The specific accounts follow in typical Beacham format with scientific and familiar names a color photo and an accompanying list giving status date listed family description habitat food reproduction threats and range Short paragraphs expand on these themes and add information on conservation and recovery efforts Several pages of references a glossary and a useful country index complete volume two Sponsored by the IUCN Encyclopedia of Endangered Species RBB F 1 95 is handy because it includes mammals birds reptiles amphibians fish invertebrates and plants in one volume However the black and white photographs do not compare to those in the Beacham volumes or in the ten volumes of Marshall Cavendish's Endangered Wildlife of the World RBB My 1 93 The latter is best suited for young readers whereas Beacham guides are suitable for any age level in any library collecting material on endangered species The photographs on the Beacham CD ROM are the ones used in the print volumes but are much less clear The CD ROM enables users to move around in the database via hyperlinks However at this time the books are easier to use because of the confusing structure of the user interface on the disk 1 085p St. Stephen's Review ,1887 **Airway Smooth Muscle** Devendra K.
