Take Two Vol 4

A. Peter Brown

Take Two Vol 4:

The Papers and Writings of Abraham Lincoln: Volume 4 Abraham Lincoln, 2015-12-18 Abraham Lincoln 1809-1865 is one of the most famous Americans in history and one of the country's most revered presidents. Schoolchildren can recite the life story of Lincoln, the Westerner who educated himself and became a self-made man rising from lawyer to leader of the new Republican Party before becoming the 16th President of the United States. Lincoln successfully navigated the Union through the Civil War but didn't live to witness his own accomplishment becoming the first president assassinated when he was killed at Ford's Theater by John Wilkes Booth. As impressive as his presidency was, one of his most lasting legacies was his writing. In addition to masterful writing for everything from orders to his generals and condolences to the aggrieved Mrs. Bixby, his Second Inaugural Address and Gettysburg Address are considered masterpieces that rate among the greatest writings in American history. Perhaps Lincoln's most impressive feat is that he was able to convey so much with so few words after famous orator Edward Everett spoke for hours at Gettysburg. Lincoln's Gettysburg Address only took a few minutes. In the generation after the Civil War, Lincoln became an American deity and one of the most written about men in history. Understandably, all of his writings and papers were intently scoured and collected and they've been preserved in seven volumes of Papers and Writings.

The Symphonic Repertoire, Volume IV A. Peter Brown, 2024-03-29 Central to the repertoire of Western art music since the 18th century, the symphony has come to be regarded as one of the ultimate compositional challenges. Surprisingly heretofore, there has been no truly extensive, broad-based treatment of the genre, and the best of the existing studies are now several decades old. In this five-volume series, Peter Brown explores the symphony from its 18th-century beginnings to the end of the 20th century. Synthesizing the enormous scholarly literature, Brown presents up-to-date overviews of the status of research, discusses any important former or remaining problems of attribution, illuminates the style of specific works and their contexts, and samples early writings on their reception. The Symphonic Repertoire provides an unmatched compendium of knowledge for the student, teacher, performer, and sophisticated amateur. The series is being launched with two volumes on the Viennese symphony: Volume IV, The Second Golden Age of the Viennese Symphony (Brahms, Bruckner, Dvorak, Mahler, and Selected Contemporaries). Although during the mid-19th century the geographic center of the symphony in the Germanic territories moved west and north from Vienna to Leipzig, during the last third of the century it returned to the old Austrian lands with the works of Brahms, Bruckner, Dvorak, and Mahler. After nearly a half-century in hibernation, the sleeping Viennese giant awoke to what some viewed as a reincarnation of Beethoven with the first hearing of Brahms's Symphony No. 1, which was premiered at Vienna in December 1876. Even though Bruckner had composed some gigantic symphonies prior to Brahms's first contribution, their full impact was not felt until the composer's complete texts became available after World War II. Although Dvorak was often viewed as a nationalist composer in his symphonic writing, his primary influences were Beethoven, Schubert, and Brahms. For both Bruckner and Mahler, the

symphony constituted the heart of their output for Brahms and Dvorak it occupied a less central place Yet for all of them the key figure of the past remained Beethoven The symphonies of these four composers together with the works of Goldmark Zemlinsky Schoenberg Berg Smetana Fibich Jan cek and others are treated in Volume IV The Second Golden Age of the Viennese Symphony covering the period from roughly 1860 to 1930

Nicene and Post-Nicene Fathers: First Series, Volume IV St. Augustine: The Writings Against the Manichaeans, and Against the Donatists Philip Schaff,2007-05-01 The Council of Nicaea in 325 AD marked the beginning of a new era in Christianity For the first time doctrines were organized into a single creed The Nicene and Post Nicene Fathers did most of their writing during and after this important event in Church history Unlike the previous era of Christian writing the Nicene and Post Nicene era is dominated by a few very important and prolific writers In Volume IV of the 14 volume collected writings of the Nicenes and Post Nicenes first published between 1886 and 1889 readers will find Augustines writings defending the Catholic church against the Manichaeans and the Donatists Manichaeism was a religion developed in Persia by the prophet Mani According to this religion creation has two parts darkness and light Light is God and has ten attributes Opposing this and coeternal with it is darkness and its five attributes Saint Augustine was originally a Manichaean so his defense of Christianity against this religion comes from a deep understanding of its nature Donatists were a group of believers who refused to forgive those who had renounced their faith during a time of persecution which caused a schism in Christianity In opposing these men Augustine attempted to mend the rift Those with an interest in ancient religions will find Augustines writings on Manichaeism one of the most important historical records of that religions practices
