The Reader's Handbook of Allusions, References, Plots and Stories Ebenezer Cobham Brewer, 1881

Chivalric Stories as Children's Literature Velma Bourgeois Richmond, 2014-09-24

Knights and ladies, giants and dragons, tournaments, battles, quests, and crusades are commonplace in stories for children. This book examines how late Victorians and Edwardians retold medieval narratives of chivalry, epics, romances, sagas, legends, and ballads. Stories of Beowulf, Arthur, Gawain, St. George, Roland, Robin Hood, and many more thrilled and instructed children and encouraged adult reading. Lavish volumes and schoolbooks of the era featured illustrated texts, many by major artists. Children's books, an essential part of Edwardian publishing, were disseminated throughout the English-speaking world. Many are being reprinted today. This book examines related contexts of Medievalism expressed in painting, architecture, music, and public celebrations, and the works of major authors including Sir Walter Scott, Tennyson, Longfellow, and William Morris. The book explores national identity expressed through literature, ideals of honor and valor in the years before World War I, and how childhood reading influenced 20th-century writers as diverse as C. S. Lewis, J. R. R. Tolkien, Siegfried Sassoon, David Jones, Graham Greene, Ian Fleming, and John Le Carré.

Prize Stories, 1927 *On Histories and Stories* A. S. Byatt, 2002-03-30

In a series of essays on the complicated relations between reading, writing, and remembering, A. S. Byatt sorts the modish from the merely interesting and the truly good to arrive at a new view of British writing in our time. Whether writing about the renaissance of the historical novel, discussing her own translation of historical fact into fiction, or exploring the recent European revival of interest in myth, folklore, and fairytale, Byatt's abiding concern here is with the interplay of fiction and history.
