trees All of the varieties in her Rose Garden were selected for their pulchritude and divine scent as well as for their ability to bloom twice to satisfy her insatiable thirst for roses And when the stream through her property offered only an unsatisfying trickle Roehm replaced it with a river of hostas primula bleeding hearts and rodgersia that sweeps through her Shade Garden As Roehm accompanies us on the first ever tour of these marvels she shares witty and candid stories of the unexpected triumphs and the sometimes crushing defeats And always there is her desire to return to the garden to tend to mend or to plant anew A garden is like love Roehm claims and indeed this lavishly illustrated volume is a testament to an enduring complex unquestionably personal and deeply passionate amour
