Religion, Supernaturalism, the Paranormal and Pseudoscience Homayun Sidky,2019-11-30 Religion Supernaturalism the Paranormal and Pseudoscience provides a comprehensive rejoinder to the challenges posed to science scientific anthropology evolutionary theory and rationality by the advocates of supernatural paranormal and pseudoscientific perspectives and modes of thought associated with the current rise of irrationalism antiintellectualism and emboldened religious fundamentalism and violence Drawing upon H Sidky s scientific anthropological background and ethnographic field research of supernatural and paranormal beliefs and practices in several cultures over three decades the book answers several important questions Why do humans have a proclivity for the supernatural and paranormal thinking Why has

humanity remained shackled to sets of ideas inherited from a violent past that have no basis in reality and which bestow an illusionary solace promote bloodshed endless cruelties and fervent hatreds and have come at a high cost Why have ancient superstitions been held as sacred inviolate truths while other aspects of the archaic belief systems of which they were a part have long been discarded Why have not humans outgrown religion and paranormal beliefs

The Fairy Way of Writing
Kevin Pask, 2013-10-15 A history of popular superstitions tales and magic in British literature In *The Fairy Way of Writing* Kevin Pask seeks to explain the origins and popularity of enchantment in Shakespeare's plays Writers John Dryden and Joseph Addison originated the phrase fairy way of writing to define the concept of an English creative imagination founded on a synthesis of high literary culture and the popular culture of tales and superstitions Beginning with Chaucer Johnson Dryden and Milton Pask argues that the fairy way of writing not only sets the stage for the fairy tale the Gothic novel and children's literature but also informs genres beyond the English canon including painting twentieth century fantasy fiction and French fairy tales In addition to English writers and visual artists such as Pope Blake and Keats who were directly engaged with Shakespearean fantasy Pask also examines fairy tales letters and paintings by the French writers Madame d'Aulnoy Charles Perrault Madame de Sevigne and the Swiss born artist Johann Heinrich Füssli *The Fairy Way of Writing* alters the traditional sense of English literary history and of Shakespeare's singular place in it insisting on the importance of often overlooked literary and visual works It recovers a distinctive aspect of English literary culture from across the entire early modern era and beyond one that has been studied in the context of individual periods and writers but is only now explored in relation to the history of European nationalism and the creation of the modern literary system
