

A black and white photograph of a person's hand, with shadows cast across it, creating a dramatic, high-contrast effect. The shadows are cast from the top right, creating a pattern of light and dark across the skin. The overall mood is mysterious and contemplative.

*Shadow's Touch* Tyler Hathaway,2024-08-08 I was quickly approaching 5 years of age Christmas had come and gone but with no expectations Now i was beginning to understand how life was mapped out for me This book will take the reader on a roller coaster of emotions It will make you cry will perhaps in some parts make you contemplate behind closed doors and it's connotations The child within everyone one of us will no doubt call out to us The book is the second in a series that not only mentions experiences but tries to get inside the mind and heart of a terrified and traumatised child who only knew it was his fault

*The Visual World of Shadows* Roberto Casati,Patrick Cavanagh,2023-12-26 How the perception of shadows studied by vision scientists and visual artists reveals the inner workings of the visual system In *The Visual World of Shadows* Roberto Casati and Patrick Cavanagh examine how the perception of shadows as studied by vision scientists and visual artists reveals the inner workings of the visual system Shadows are at once a massive problem for vision which must distinguish them from objects or material features of objects and a resource signaling the presence location shape and size of objects Casati and Cavanagh draw up an inventory of information retrievable from shadows showing their amazing variety They present an overview of the visual system distinguishing between measurement and inference They discuss the shadow mission the work done by the visual brain to parse and perhaps discard the information from shadows shadow ownership the association of a shadow with the object that

casts its shadow labeling the visual system's ability to tell shadows from nonshadows and the shadow concept our knowledge about shadows as a category Casati and Cavanagh then apply the theoretical apparatus they have developed for shadows to other phenomena illumination reflection and transparency Finally they examine the art of the shadow paying tribute to artists exploration of shadow analyzing a series of artworks reproduced in color from a rich and fascinating art historical corpus

*Touching the Unreachable* Fusako Innami, 2025-09-30 Fusako Innami offers the first comprehensive study of touch and skinship relationality with the other through the skin in modern Japanese writing The concept of the unreachable that is the lack of characters complete ability to touch what they try to reach for provides a critical intervention on the issue of intimacy Touch has been philosophically addressed in France but literature is an effective or possibly the most productive venue for exploring touch in Japan as literary texts depict what the characters may be concerned with but may not necessarily say out loud Such a moment of capturing the gap between the felt and the said the interaction between the body and language can be effectively analyzed by paying attention to layers of verbalization or indeed translation by characters utterances authors depictions and readers interpretations Each of the writers discussed in this book starting with Nobel prize winner Kawabata Yasunari Tanizaki Jun ichir Yoshiyuki Junnosuke and Matsuura Rieko presents a particular obsession with objects or relationality to the other constructed via the desire for touch In *Touching the Unreachable* phenomenological and psychoanalytical approaches are cross culturally interrogated in engaging with literary touch to constantly challenge what may seem like the limit of transferability regarding concepts words and practices The book thereby not only bridges cultural gaps beyond geographic and linguistic constraints but also aims to decentralize a Eurocentric hegemony in its production and use of theories and brings Japanese cultural and literary analyses into further productive and stimulating intellectual dialogues Through close readings of the authors treatment of touch Innami develops a theoretical framework with which to examine intersensorial bodies interacting with objects and the environment through touch

**The Shadow's Touch** Jesse Perry, 1997-11-01 Cutting edge horror short stories and tales of the fantastic That is how I would want my stories to be remembered I want to shock you to surprise you to scare you I want to show you things that you have never seen before and even things that you don't want to see If I can do that then I have done my job And I will not accept failure My stories run the full list of genres From hardcore horror to sci fi to even a little romantic at times and the occasional humorous story throw in just to keep you off guard When you read *The Shadows Touch* I want you to always be on your toes wondering what will come next and when you find out I want you to be wrong I try very hard to not be trite in my storytelling and let the characters decide where and what they do next When that magic moment occurs and the characters start telling me what will happen next then I know that I have something good going The only good story is an original story That is the motto that drives my writing If I don't have something to say in the story even if it is buried deep within the story and is very personal or if I beat the reader over the head with the moral there is always something going on in my stories besides just the action that the
