emotional experience Character is the heart of that If you re looking for a book to help you to improve your screenplay writing fiction writing or play writing then this is for you An invaluable tool for beginner and experienced writers This is perfect for anyone interested in screenwriting books fiction writing books or character development books Praise for The Craft of Character Would 100% recommend not only for beginners but also for experienced writers looking to get to know their characters better A bit like writer character therapy reader review Both the chapters and the exercises are easy to understand and get through Mark Boutros clearly knows his stuff and seems happy to be able to help the reader rather than becoming lecturing and elitist The structure of the book also means that it is easy to dip back into when you come across a specific problem and as such it is a great little reference book which any aspiring storyteller would benefit from reader review Normally I find myself arguing with the author of craft books but here I would say 90% of what I read were things I either found helpful or flat out agreed with whole heartedly and just needed a reminder on why these things are important The exercises were a excellent touch especially as someone who is teaching writing it gave me ideas on what to do for my students reader review
