Stiff News:

Television Is the New Television Michael Wolff, 2017-02-07 The closer the new media future gets the further victory appears Michael Wolff This is a book about what happens when the smartest people in the room decide something is inevitable and yet it doesn't come to pass What happens when omens have been misread tea leaves misinterpreted gurus embarrassed Twenty years after the Netscape IPO ten years after the birth of YouTube and five years after the first iPad the Internet has still not destroyed the giants of old media CBS News Corp Disney Comcast Time Warner and their peers are still alive kicking and making big bucks The New York Times still earns far more from print ads than from digital ads Super Bowl commercials are more valuable than ever Banner ad space on Yahoo can be bought for a relative pittance Sure the darlings of new media BuzzFeed HuffPo Politico and many more keep attracting ever more traffic in some cases truly phenomenal traffic But as Michael Wolff shows in this fascinating and sure to be controversial book their buzz and venture financing rounds are based on assumptions that were wrong from the start and become more wrong with each passing year The consequences of this folly are far reaching for anyone who cares about good journalism enjoys bingeing on Netflix works with advertising or plans to have a role in the future of the Internet Wolff set out to write an honest guide to the changing media landscape based on a clear eyed evaluation of who really makes money and how His conclusion The Web social media and various mobile platforms are not the new television Television is the new television We all know that Google and Facebook are thriving by selling online ads but they're aggregators not content creators As major brands conclude that banner ads next to text basically don't work the value of digital traffic to content driven sites has plummeted while the value of a television audience continues to rise Even if millions now watch television on their phones via their Netflix Hulu and HBO GO apps that doesn't change the balance of power Television by any other name is the game everybody is trying to win including outlets like The Wall Street Journal that never used to play the game at all Drawing on his unparalleled sources in corner offices from Rockefeller Center to Beverly Hills Wolff tells us what's really going on which emperors have no clothes and which supposed geniuses are due for a major fall Whether he riles you or makes you cheer his book will change how you think about media technology and the way we live now

The Fourth Eye Brendan Hokowhitu, Vijay Devadas, 2013-10-01 The Fourth Eye brings together Indigenous and non Indigenous scholars to provide a critical and comprehensive account of the intricate and complex relationship between the media and M ori culture Examining the Indigenous mediascape The Fourth Eye shows how M ori filmmakers actors and media producers have depicted conflicts over citizenship rights and negotiated the representation of Indigenous people

[Urban Expansion and Food Security in New Zealand](#) Benjamin Felix Richardson, 2023-08-21 This book examines suburban development in New Zealand and its conflict with and impact on local horticulture and food security Drawing on an ethnographic study of Auckland's rapidly expanding urban periphery combined with comparative case studies from California in the USA and Victoria in Australia the book examines how the profit making

strategies of property developers and landowners drastically reshapes work and life at the edge of cities With a significant portion of the world s croplands lying adjacent to cities the accelerating pace of urban sprawl across the planet places unprecedented pressure on the productivity and even existence of these vital food bowl regions The book examines how the demand for more land for development at the urban periphery collides with concerns over local food security and the protection of ecosystem services It analyses land use policy historical records and physical patterns of development alongside participant observation of local events It combines this with interviews with government officials property developers landowners local residents and horticulturists By combining these narratives of the hectic and lucrative business of suburban property development with the collapse of local horticulture this book shows how the realignment of the New Zealand s interests of financial profitability over other concerns led to the transformation of urban peripheries from a productive food bowl to an investment vehicle This book will be of great interest to students and scholars of urban food and agriculture urban planning and development and rural urban studies
