

The Animals39 Easter

Robert Browning

The Animals³⁹ Easter:

The Survival of Easter Island Jan J. Boersema, 2015-04-13 In this book Jan J Boersema reconstructs the ecological and cultural history of Easter Island and critiques the hitherto accepted theory of the collapse of its civilization The collapse theory advanced most recently by Jared Diamond and Clive Ponting is based on the documented overexploitation of natural resources particularly woodlands on which Easter Island culture depended Deforestation is said to have led to erosion followed by hunger conflict and economic and cultural collapse Drawing on scientific data and historical sources including the shipping journals of the Dutch merchant who was the first European to visit the island in 1722 Boersema shows that deforestation did not in fact jeopardize food production and lead to starvation and violence On the basis of historical and scientific evidence Boersema demonstrates how Easter Island society responded to cultural and environmental change as it evolved and managed to survive

Control and Manipulation of Animal Growth P.J. Buttery, D.B. Lindsay, N.B. Haynes, 2016-01-22 *Control and Manipulation of Animal Growth* explores the development and growth of animals The reproductive system of animals is also discussed along with how its development can be accelerated The topic is presented using various studies by the authors together with a number of references to other books and studies This book contains 20 chapters and revolves around the advancement of an animal's growth hormone It explains how gender plays a part in an animal's development and talks about factors that can affect the process such as environment temperature and food intake This book also discusses bone growth fetal growth metabolism factors of epidermal growth growth manipulation growth hormones hormonal manipulation and the effect of insulin This text covers a wide range of facts and investigations and can therefore serve as an excellent reference for people who want to study an animal's internal and external development

What Is In A Rim? Arif Dirlik, 2021-11-28 In this volume scholars question the current euphoria over the rapid growth of the Pacific rim as an economic region and as a political ideal They suggest that much of the discourse on the region is highly ideological focusing on its potential for capitalist development while ignoring the limitations of such development its human costs and consequences This critique of the idea of a Pacific rim also seeks to redress the balance by focusing on the region in terms of human interactions
