## **The Future Of Theology:**

Apocalyptic and the Future of Theology Joshua B. Davis, Douglas Harink, 2012-11-07 Ernst Kasemann famously claimed that apocalyptic is the mother of Christian theology J Louis Martyn's radical interpretation of the overarching significance of apocalyptic in Paul's theology has pushed Kasemann's claim further and deeper Still despite the recognition that apocalyptic is at the core of New Testament and Pauline theology modern theology has often dismissed domesticated or demythologized early Christian apocalyptic A renewed interest in taking apocalyptic seriously is one of the most exciting developments in recent theology The essays in this volume taking their point of departure from the work of Martyn and Kasemann wrestle critically with the promise and possible peril of the apocalyptic transformation of Christian theology With original contributions from established scholars including Beverly Gaventa Stanley Hauerwas Robert Jenson Walter Lowe Joseph Mangina Christopher Morse and Fleming Rutledge as well as younger voices this volume makes a substantial contribution to the discussion of apocalyptic and theology today A unique feature of the book is a personal reflection on Ernst Kasemann by J Louis Martyn himself

The Future of Theology Miroslav Volf, Carmen Krieg, Thomas Dörken-Kucharz, 1996 Front ranking figures in today's theological enterprise have contributed to this superb collection of essays setting the agenda for theology in the twenty first century Contributors include Stanley Hauerwas John Howard Yoder Gustavo Gutierrez Wolfhart Pannenberg Hans Kung and numerous others

The Future of Christian Theology David F. Ford, 2011-02-28 The Future of Christian Theology represents a personal manifesto from one of the world's leading theologians exploring the ways Christian theology in the twenty first century has been and can now continue to be both creative and wise Represents an outstanding and engaging account of the task of theology today Offers an insightful description of what makes for discerning and creative theology Written from the perspective of decades of experience and in close dialogue with theologians of other faiths Features a strong interfaith and public theology dimension and a contemporary portrait of the field from the inside A hopeful and illuminating search for wisdom and understanding in the increasingly complex religious and secular world of the twenty first century

**The Future of Theology** Miroslav Volf, Carmen Krieg, Thomas Kucharz, 1996 This is a print on demand book and is therefore non returnable Perhaps no other theologian of the second half of this century has shaped theology so profoundly as has Jürgen Moltmann He appeared on the world theological scene with his *Theology of Hope* 1964 and took most of its capitals by storm His subsequent works have kept him at the forefront of the modern theological enterprise and the power of his vision and the originality of his method have inspired a host of new theologians In terms of fecundity Moltmann's opus remains unmatched among his generation of theologians More than 130 dissertations written so far on his thought most of them in the past decade testify eloquently to its continued attractiveness In honor of Moltmann's 70th birthday twenty six of the world's leading theologians his friends colleagues interlocutors and former students have contributed to this volume on the future of theology Moltmann himself has always sought to be both contemporary and future

oriented his theology can be viewed as an exercise not only from the perspective of God's future but also toward a new human future. Thus a book on the future of theology takes up an aspect of his theme and his concern. Yet this volume also makes a significant contribution to theology in its own right, seeking as it does to address the present crisis of theology. As Miroslav Volf writes in his introduction: "On the threshold of the third millennium the presumed queen of sciences has grown old and feeble, unable to see that what she thinks is her throne is just an ordinary chair, uncertain about what her territories are and confused about how to rule in the realms she thinks are hers, seeking advice from a quarrelsome chorus of counselors, each of whom thinks himself the king and ending up with a divided, even schizophrenic mind." The essays in this volume attempt to revitalize theology as it confronts a difficult future. Despite the formidable obstacles that threaten the very survival of theology in the next century—religious and cultural plurality, the marginalization of theology in public discourse, increasing abstraction in the practice of theology, pressing issues of gender, race, poverty, and ecology—the seemingly archaic voice of theology in post-Christian societies, the contributors to this volume all believe in the future of theology as a vibrant discipline. The *Future of Theology* is organized in three parts. *Challenges* deals with the external or internal problems that theology is facing. *Perspectives* offers proposals on how to meet the challenges. *Themes* concentrates on various issues that need special attention today. Together these essays succeed in setting the theological agenda for the future of theology and thereby serve as a fitting tribute to this volume's esteemed honoree.

**The Future of Christian Theology** David F. Ford, 2011-03-07

The *Future of Christian Theology* represents a personal manifesto from one of the world's leading theologians exploring the ways Christian theology in the twenty-first century has been and can now continue to be both creative and wise. Represents an outstanding and engaging account of the task of theology today. Offers an insightful description of what makes for discerning and creative theology. Written from the perspective of decades of experience and in close dialogue with theologians of other faiths. Features a strong interfaith and public theology dimension and a contemporary portrait of the field from the inside. A hopeful and illuminating search for wisdom and understanding in the increasingly complex religious and secular world of the twenty-first century.

**Theology for the Future** Andrew Hollingsworth, 2021-08-19

Wolfhart Pannenberg was one of the most important theologians of the twentieth century and his work has much to offer contemporary theologians. In this book the contributors analyze and discuss a component of Pannenberg's theology with an eye to demonstrating its enduring promise for contemporary and future theological construction. Topics discussed include Pannenberg's theological method, defense of the historicity of Jesus' resurrection.

doctrine of God doctrine of the Trinity theory of time doctrine of creation doctrine of salvation and public theology **After God** Don Cupitt,1997-04-18 Considers the fate of religion the evolution of religious belief from the dawn of the gods to their twilight and tomorrow Challenges us to see religion less as an ideology and more as a tool kit a set of techniques perhaps an art form enhancing our lives the way that literature and art do **The Future of God** Carl E. Braaten,2016-10-19 A recent movement in modern religious thought believes that the place to start in theology is at the end eschatology At a critical time in history when many are unsure of the future of faith in a secular age here is a call for believers to participate in God's activity in the future tense The basic theme in these pages is the idea of the future in the language of Christian hope and in the interpretation of history The rediscovery of the role of eschatology in the preaching of Jesus and of early Christians says Dr Braaten has been one of the most important events of recent theological history Eschatology has not always been taken seriously Theologians have often defined it so that the dimension of the future was allowed to slip into an eternal present God was thus viewed only in vertical terms as being above us The author feels that this loss of hope in the future precipitated the crisis known as the death of God movement In this book Dr Braaten joins those thinkers who are looking to eschatology as a point of departure for a total recasting of the Christian message He presents a constructive and systematic outline of the theology of the future and puts forth an understanding of God shared with early Christianity as being ahead of us The thrust of this theology of the future is an ethic of revolutionary change derived from the Christian vision of the kingdom of God Christianity's eschatological faith is shown to be closely connected to the revolutionary concerns of the modern world both as the sponsor of its driving images and as a companion in the struggle for its realization The final chapter turns to an ethic of revolution based on the politics of hope **The Future of Christology** Roger Haight,2005-01-01 The Future of Christology covers much the same ground as Jesus Symbol of God though in a much more accessible and compact format *Theology and the Future* Trevor Cairney,David Starling,2014-07-31 Theology was once queen of the sciences the integrating centre of Christendom's conceptual universe In our own time the very idea of systematic theology is frequently called into question derided as an arcane and superstitious pseudo discipline Even within the church it is commonly disregarded in favour of unreflective piety and pragmatism At the same time the southward shift in world Christianity's centre of gravity prompts crucial questions about the future form and content of theology Within this context Theology and the Future offers a case for the continuing viability of theology exploring how it might adapt to changing circumstances and discussing its implications for how we are to imagine and help shape our shared human future Beginning with the question of God this book explores what might be meant by the future of God and what its implications are for Christian theology Chapters follow on the location of theology in global Christianity the church and the academy and on its sources and method The second half of the book explores a wide variety of dimensions of the human future that theology might address and illuminate The essays bring together a mix of specialist theologians and interdisciplinary thinkers to support the assertion that there can be no more

critical endeavor to the future than understanding God and all things in relationship to him [The Future of Open Theism](#) Richard Rice, 2020-04-28 Evangelical theology has grappled with open theism and its alternative doctrine of God for decades Richard Rice recounts the history of open theism from its antecedents and early developments to its more recent expressions considering how it might continue to develop in relation to several primary doctrines of the Christian faith *God--The World's Future* Ted Peters, 2015-08-01 God The World's Future has been a proven textbook in systematic theology for over twenty years Thoroughly revised and expanded this third edition is explicitly crafted to address our postmodern context and explains the whole body of Christian historical doctrine from within a proleptic framework Peters skillfully deploys this concept not only to organize the various theological areas or loci but also to rethink doctrines in light of key postmodern challenges from ecumenism critical historical thinking contemporary science and gender and sexuality issues **Jürgen Moltmann and the Work of Hope** M. Douglas Meeks, 2018-10-31 These essays reflect on the future of Christian theology in light of the contributions Jürgen Moltmann has made in his prolific career as one of the world's foremost theologians They are not a prediction of what is coming in the future of theology since God's own actions and human history for that matter are not predictable Expressed here is hope for what future theology should take seriously from Moltmann's work Moltmann broke the mold of 19th and 20th century theology by focusing consistently on God's promises of a new heaven and a new earth The result was a theological imagination that is utterly realistic delighting in the creative tension of theology that lives in an unfinished open field of negations and possibilities Hope for the promised future of God casts its light on present sufferings that contradict that future The prominent themes here focus on the contradictions of God's promises and God's justice The essays see clearly the human domination that leads to the oppression of nature the hatred of the poor the dominance of one gender over the other the migration of those who find no home in their homeland and the wounds of neocolonialism For Moltmann these sufferings do not belong simply to ethics but to the heart of theology The doctrines of creation redemption and new creation are fully engaged in the political economic ecological and social problems of this time Here lies the way ecumenism will be reborn in the future The essays argue that theology should not turn aside from Moltmann's main theme of the resurrection of the Crucified One and of the presence of God's future in the present Hope opens our eyes to the work of God's Spirit of Life and the affirmation of eternal life in the present The future of Christian theology should not miss the theme of joy in the face of sin death and evil and the celebration of God's cosmic all inclusive future in which God will be at home in God's creation **Theology and the Future** Eric Lionel Mascall, 1968 **The Future of Religion and the Religion of the Future** Theodore John Rivers, 2012 In *The Future of Religion and the Religion of the Future* Theodore John Rivers explores the changing relationship between technology and religion Rivers draws upon his expertise in the fields of medieval and religious history to discuss how the promotion of Christianity and monasticism in the Middle Ages began a process that has lent religious undertones to the way in which we interact with modern technology

Rivers ultimately suggests that the growing presence of technology makes it a likely candidate for the next religious form competing with all the major religions in place today

**Ethics and the Future of Religion** W. Royce Clark, 2022-02-03 W Royce Clark observes that humanity appears to be jeopardizing our own future in a chaos of mutual antagonism and hypocrisy Religions have traditionally provided ethical guidance but because their absolutized metaphysics are incompatible with each other we cannot rely on any one of them in a religiously pluralistic culture The ethics of various religions are also built on theocratic or authoritarian foundations which are incompatible with any democratic society Finally many of their premises are very ancient so not relevant or appropriate in our modern scientific world The Western Enlightenment brought challenges against religion's singularity exclusivity heteronomy and anti scientific assumptions all of which disrupted their ethics and the Absolute metaphysical grounds upon which those ethics rested raising the question of whether a freestanding ethic was possible Inasmuch as the primary claim of most religions was regarded as beyond challenge but was a conflation of history and myth modern historical method created more doubt than certainty about such allegedly certain doctrines as Jesus is the Son of God By the end of the 20th century the impossibility of validating such primary Christological claims from a historical approach became evident despite the articulate attempts at credibility in the brilliant works of John Dominic Crossan and Wolfhart Pannenberg which remained unconvincing in important ways Between 1832 and 2014 innovative Christian theologians such as Schleiermacher Hegel Tillich and Scharlemann took a detour from the futility of historical verification This study examines their remarkable attempts at a form of corroboration of the basic Christological claim even if their primary interests were more in Christology than ethics The question Clark takes up here is whether or not these figures have thereby provided a base for a universal ethic or the only answer is for principles freestanding from any religion

**The Future of God** Stephen R. Schwalbe, 2025-05-30 This book reviews the three Abrahamic faiths Judaism Islam and Christianity to determine how humankind will accommodate God in the future While there are many publications about the future of God or the future of religion they tend to reflect a specific academic field such as theology or sociology This book reviews the future of God reflected in four primary academic fields including theology dealing directly with God and religion sociology addressing how societies evolved with God and religion biology dealing with the scientific evidence of the existence of God and physics addressing God's intelligent design of the universe Then the book analyzes each field's future projections for God in order to determine the most likely future In the end the book discusses a possible future religion based on the academic review of the future of God

*Pluralism: The Future of Religion* Kenneth Rose, 2013-03-28 Theology of religions has defaulted in the last two decades to an epicyclic inclusivism which seeks to undermine pluralism with claims that it is covertly triumphalistic and that it mirrors the logic of exclusivism With the exception of pioneers in the field such as John Hick and Paul Knitter most major figures in this theological field have retreated from pluralism and promote versions of particularism and inclusivism Pluralism The Future of Religion argues for an apophatic pluralism that is motivated by the

insight that it is impossible to secure universal assent for changeable bodies of religious teachings This insight implies the non finality and consequent departicularization of all religious teachings and their inclusivistic defenses These conclusions point us inevitably toward pluralism and lead us out of the inclusivistic impasse of contemporary theology in religions
